Notes for Safety and Product Information

1. Battery Alarm

Do not damage battery via shape items, and do not disassemble it without authorization;

2. Health Alarm

If you are wearing implantable electronic devices such as pacemakers, please consult your doctor before heart rate measurement;

Equipped optical heart rate sensor flashes green light. If you have epilepsy or are sensitive to flickering light, please consult your doctor whether you can use the product;

The device will track your daily activities according to the sensor with the aim of offering data involving your daily activities such as steps, mileage, calorie, sleep and heart rate. Please note that they may not be completely accurate; The device, accessories, heart rate sensor and other related data are for entertainment and fitness, instead of medical purpose. They can't help you diagnose, monitor, treat and prevent any disease or symptom. The heart rate data is for reference only. We aren't liable for all results caused by data deviation.

3. Traffic Safety

Please keep great judgement and ensure driving safety. Do not carry out all activities that may divert your attention; malfunction may occur due to the interference of radio. Please contact the manufacturer to consult about detailed information.

4. Operating Environment

Do not wear the watch when shower;

Do not wear the watch too tight, and keep the part that touches skin dry;

Do not make kids or pets bite the device or its accessories to avoid any damage;

The watch isn't waterproof to acid, alkaline solutions, chemical reagent and other corrosive liquid;

Please use the device within 0-35. Too high or too low environment temperature may bring device malfunctions.

5. Declaration of Conformity

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: 1) this device may not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void your authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try correct the interference by one or more of the following measures:

- Reorient the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

– Consult the dealer or an experienced radio/TV technician for help.

The device conforms to EU ROHS standards. Please refer to IEC 62321, EU ROHS directive 2011/65/EU and Recised directive.

6.Safety Warnings

Unauthorized battery change will lead to explode;
Please handle used battery according to the following descriptions:

Do not dispose old battery and residual wastes together. Please deal with them separately. It is free to handle them at the public collection station. Owners of old appliances should be responsible for bringing them to collection stations or similar stations. A little personal efforts make contributions to the recycle of valuable raw materials and handling of harmful substances.
