Thanks for choosing our Bluetooth FM Transmitter. This device release stream music and calls directly from your Bluetooth device to your car FM stereo system. The built-in microphone provides you with an amazing hands free function, the USB disk lets you enjoy favorite MP3\WMA\WAV\APE\FLAC from your car's stereo system. The triple charging ports can meet all your charging needs. By the way, the bass button make you enjoy the Bass Music. Please read the User Manual carefully before using. Hope this device make your driving more interesting and safe.

Packing contents:

- Bluetooth device
- User Guide

Specifications:

- Bluetooth chipset: 5.3 version
- Support prorocol:AVRCP,HFP,A2DP
- Frequency range: 87.6-107.9MHZ
- Music format: MP3/WMA/WAV/APE/FLAC
- QC3.0 fast charging port + TYPE-C & USB port sharing 5V/2.4A (Total 30W)
- Low battery voltage alert
- EQ settings(b0, b1);
- LED display(Red):20*8*4mm
- Material: ABS+PC
- Product dimensions:83.6*48.5*48.5
- Weight:41.2G

Features:

1. Wirelessly transmit phone call from Bluetooth mobile phone to the car FM stereo system
2. One-button to enjoy the Bass Music
3. Dedicated CD-pattern bass booster button to activate enhanced bass effect
4. Switch to Hands-free mode automatically from music playing status when receiving calls
5. Uniquely designed microphone for better noise cancellation

6. Support USB Disk 64G Max
7. Draws power from the cigarette socket in the car (DC 12V-24V)
8. Elegant LED display numbers
9. Detects the Voltage of car battery when power on.
10. Over-current protection, Short Circuit protection and Over-temperature protection, Over-voltage protection

Voltage outputs: QC3.0 5V/3A 9V/2A 12V/1.5A

TYPE-C & USB port sharing 5V/2.4A

Bass Music:

When listening to the music from USB or mobile phone. Press the button “**b**” to enjoy the bass audio music. Press again to deactivate bass booster and enjoy the original audio.

FCC Warning

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Radiation Exposure Statement

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
