FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However,

there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC Radiation Exposure Statement

The antennas used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located for operating in conjunction with any other antenna or transmitter.

Specification

Model	Mini 8
Max. media width	205mm
Max. cutting width	195mm
Cutting precision	0.1mm
Repeat precision	0.1mm
Max. straight-line cutting speed	250mm/s
Max. curve cutting speed	200mm/s
Max. force	1000g
Connector interface	Wifi 2.4G
Input	110V-240V
Power	<100W
Working environment	+5°C — +35°C
Packing size	525*315*220mm
Packing gross weight	5.4kg
Net weight	4.4kg
