When the battery of the Bluetooth earbud is low, the low battery tone will be played every 30 seconds until the earbuds are powered off.

Pairing method

- Take it out of the charging box or press the left/right earbud multi-function buttons for 3 seconds at the same time to turn on. At the same time, the left and right earphones continue to flash alternately with red and blue lights. After the pairing is successful, the paired earbud will play a pairing success tone, and the blue indicator light will flash slowly.
- Activate the Bluetooth function of the phone or other device. If it is the Android mobile device, please click the "Search Bluetooth device" option on the phone. If it is the phone or device of the iOS system, will automatically search for the device; when the model of the Bluetooth the earbud is found, Click to pair; when the pairing is successful, the left and right earbuds will sound the prompt sound of the successful connection at the same time, and the blue indicator light of the left and right earbuds will flash slowly and enter the connected standby state.
- The two earbuds can also be paired with the phone separately. The operation method can be operated according to the above step 2 operation method.

Charging operation

- Plug the Micro USB charging cable into the USB port of the charging box and plug the charger into the charging box to charge the charging box.

- Charge the earbuds: Put the earbuds into the charging box to charge automatically. The earbud indicator will be red when charging, and it will go out after fully charged; the blue indicator in the charging box will stay on, and the blue indicator in the charging box will go out when the earbud is fully charged.

Precautions

- Please charge in a safe environment. When charging the charging box, in order to avoid damage to the charging box when plugged in for a long time, please separate the charging box from the USB charging cable as soon as possible after the charging indicator indicates that it is fully charged.
- When playing music, please adjust the music to the appropriate volume to avoid hearing damage at high volume for a long time.
- Try to avoid using the earbud in a place with interference sources, otherwise, it may affect the earbud signal.
- Try to avoid using this earbud in a corrosive environment to avoid affecting the function of the earbud.
- Tips: When you use this Bluetooth earbud to listen to music or talk, please pay attention to adjusting the volume properly, so as not to affect the hearing of excessive volume!
