Battery	Lithium battery, 400mAh /3. 7v
Dimensions	75mm *15mm * 10mm
Intercom users	Two riders
Working time	12 hours
Standby time	200 hours
Charging time	2 hours
Weight	30g
Frequency Range	2.4G-2.485G
Operating temperature	-20 C-50 °C
Certification	CE FCC ROHS BQB TELEC
USB Adapter standard charge voltage	DC 5V±0.2V
USB Adapter standard charge circuit	DC 1A+0.5A

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules.
These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.
However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning theequipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's amhority to operate the equipment.
