- · Q: How do I connect to the internet via WiFi?
  - A: In settings, navigate to Networking Setting, select WIFI setting, turn WIFI ON, choose the desired WIFI ID, and input the password to connect to the internet.

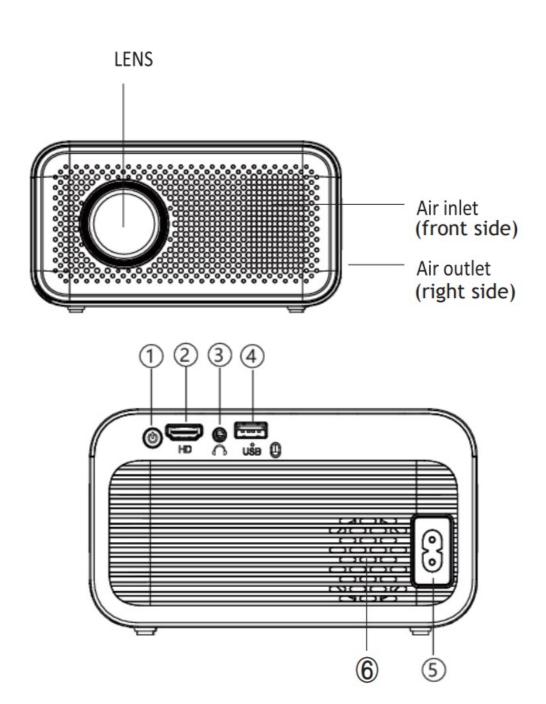

#### PRODUCT INFORMATION

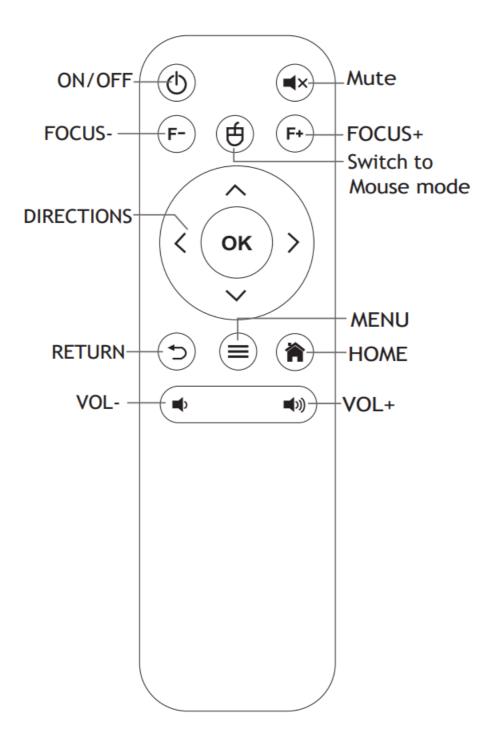

Attention: Please read this manual carefully before use and keep it for future reference.

- 1. The projector is not dustproof or waterproof.
- 2. To reduce the risk of fire and electric shock, do not expose the projector to rain and fog.
- 3. Please use the original power adapter. The projector should work under a specified rated power supply.
- 4. When the projector is working, please do not look directly into the lens, the strong light will flash your eyes and cause slight pain. Children should use the projector under the supervision of adults.
- 5. Do not cover the vents of the projector. Heating will reduce the life of the projector and cause danger.
- 6. Regularly clean projector vents or dust may cause cooling malfunctions.
- 7. Do not use the projector in a greasy, damp, dusty, or smoky environment. Oil or chemicals will cause malfunction.
- 8. Please handle it with care during daily use.
- 9. Please cut off the power if the projector is out of use for a long time.
- 10. Non-professionals are forbidden to disassemble the projector for testing and maintenance.

#### **Disclaim**

- This manual is general instructions, The pictures and functions in this manual should be subject to the actual product. Our company is devoted to improving product performance, we reserve the right to modify product functions and interface described in this manual without notice.
- Please keep your device properly. We are not responsible for any loss caused by the wrong operation of software/hardware repair or any other reasons. We are not responsible for any loss of any third-party claims.
- This manual has been carefully checked by a professional engineer, please understand for any inevitable omissions.

#### **FCC**

**Warning:** Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This device complies with part 15 of the FCC Rules.

#### Operation is subject to the following two conditions:

- 1. This device may not cause harmful interference, and
- 2. this device must accept any interference received, including interference that may cause undesired operation.

#### **FCC Statement:**

This equipment has been tested and found to comply with the limits for a Class B digital device, under part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not

installed and used per the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- · Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

#### RF exposure compliance statement:

This device has been evaluated to meet the general RF exposure requirement This equipment should be installed and operated with a minimum distance of 20cm between the radiator and your body.

**Attention:** Please do not look directly into the lens when projecting to prevent the strong light from harming your eyes. Kids should use the projector under the supervision of adults.
