userguide.shokz.net/OpenComm2UC2025Upgrade

ON/OFF

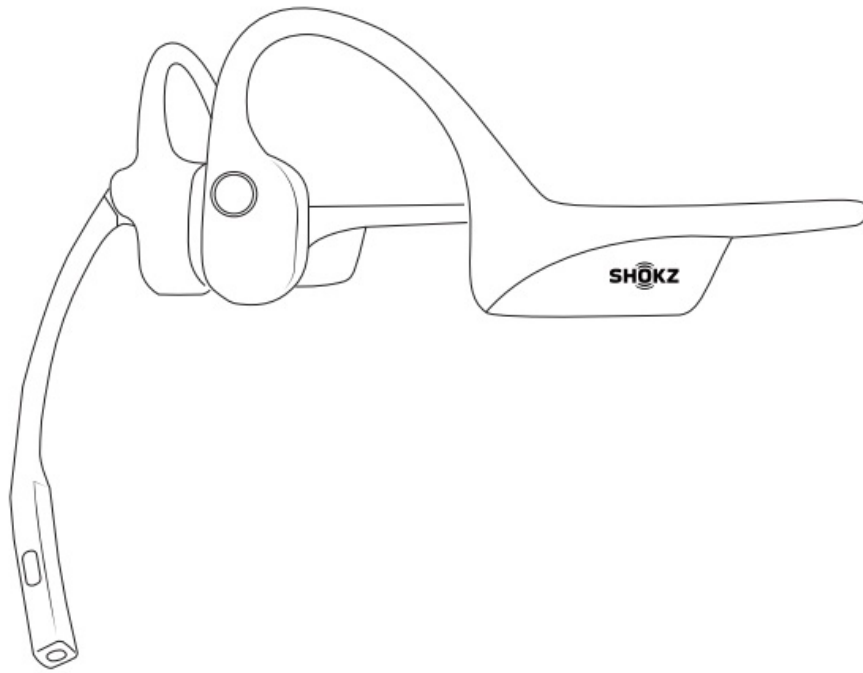

Turn on the headset

- Press and hold the 2 seconds until the LED
- The indicator flashes blue.

Turn off the headset

- Press and hold the Power/Volume + Button for 3 seconds until the LED
- The indicator flashes red.

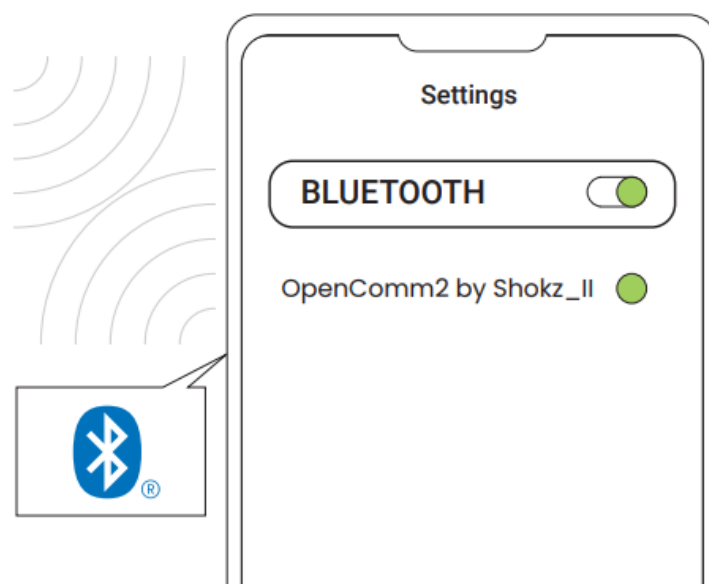

Pairing to a Mobile Device

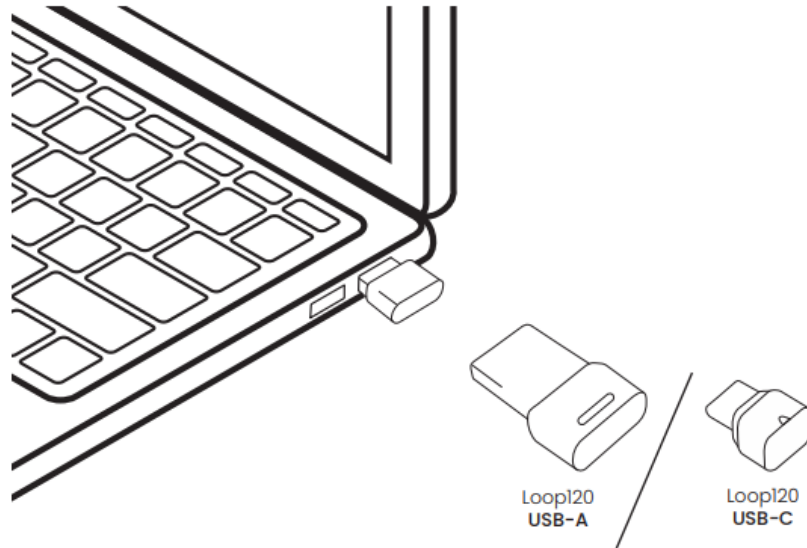

Operate controls with your headset powered off.

1. Start with your headset turned off.
2. Press and hold the Volume+ Button until the LED indicator flashes red and blue alternately.
3. Select “OpenComm2 by Shokz_ii” on your device’s Bluetooth settings. You will hear “Connected”.

Pairing to PC

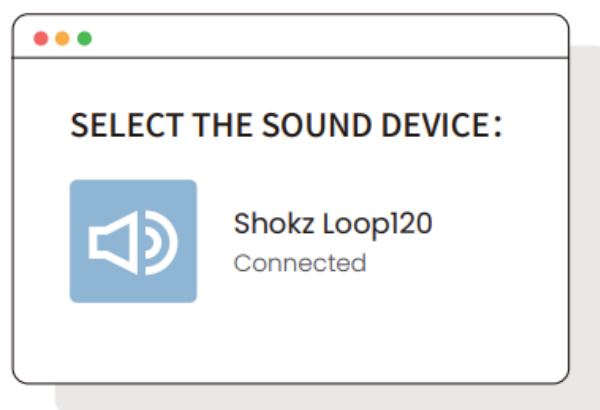

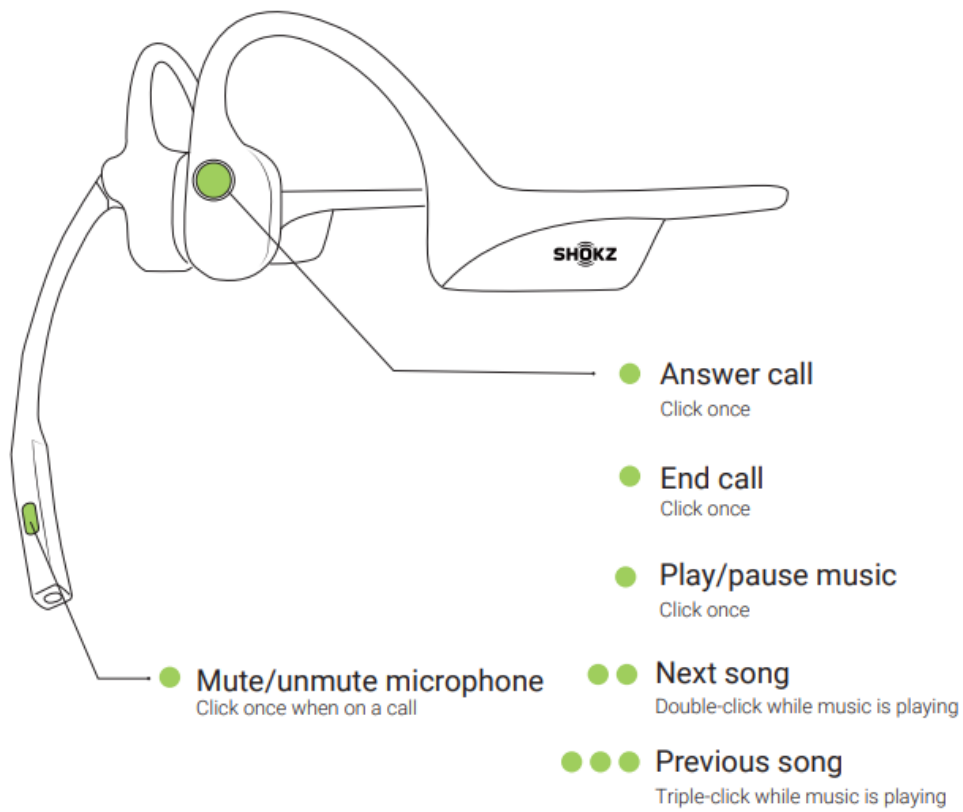

1. Start with your headset turned on.
2. Plug the included USB adapter into a USB port on your PC.
3. Connection is established when you hear “connected,, and the LED indicator on the wireless adapter is solid cyan.

Configure

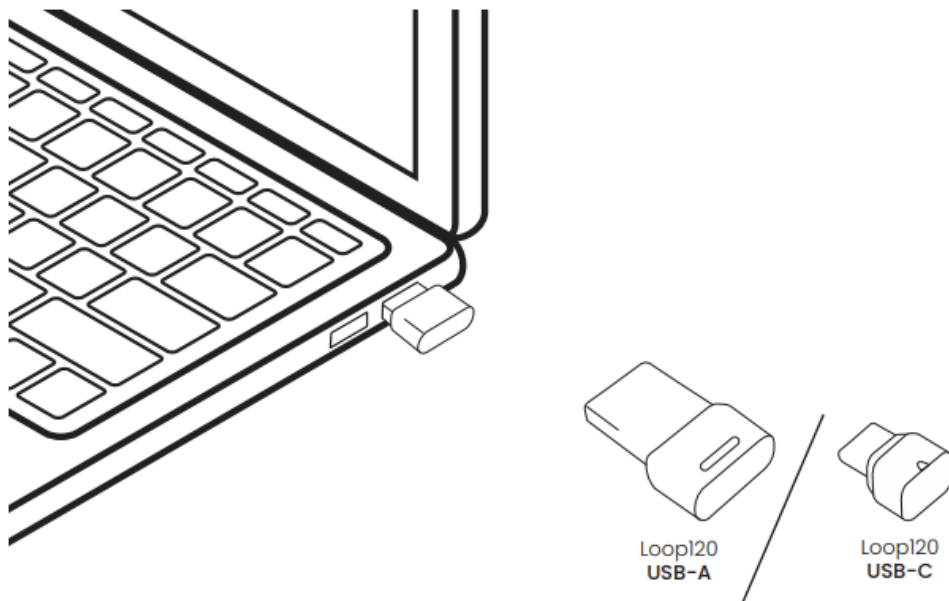

To play music or take calls on the headset, please ensure the “Shokz Loop120” is both identified as the default input and output devices in your operating system’s audio settings.

FAQs

How do I know if the headset is paired with a device?

The LED Indicator will show a solid colour when connected to a device, and you will hear an audio prompt confirming the connection.

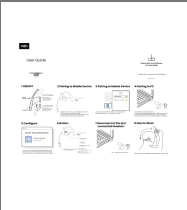

Can I use the headset while it's charging?

Yes, you can use the headset while it's charging, but it's recommended to let it fully charge before extended use.

How do I adjust the volume on the headset?

Use the Volume+ and Volume- Buttons to adjust the volume levels on the headset.
