Showcase Expandable Hose with Valve

## Product Information

### Specifications

- Intended Use: Outdoor watering applications
- Not for: Hot water use

### Product Usage Instructions

#### Safety Warnings

1. Intended for outdoor watering applications only
2. Not for hot water use
3. Do not leave under pressure when not in use
4. Do not leave unattended children to use it
5. Do not leave out on freezing temperatures
6. Store indoors in winter

#### Usage Guidelines

**Follow these guidelines to ensure safe and effective use of the product:**

- Only use the product for outdoor watering purposes.
- Avoid using hot water with the product.
- Release pressure before storing the product.
- Keep the product out of reach of children when not in use.
- Store the product indoors during winter to prevent damage.

## **Cleaning and Maintenance**

Regularly clean the product after each use to prevent clogging and maintain performance. Store the product in a dry place when not in use to prolong its lifespan.

## **Storage Instructions**

When storing the product, ensure it is completely drained of water and kept in a cool, dry place away from direct sunlight.

## **Additional Tips**

Inspect the product for any damages before each use. Replace any worn-out parts to prevent leaks or malfunctions during operation.

## **FAQs**

### **1. Q: Can I use this product for hot water applications?**

A: No, this product is specifically designed for outdoor watering and should not be used with hot water.

### **2. Q: Is it safe to leave the product out in freezing temperatures?**

A: No, it is recommended to store the product indoors during winter to prevent damage due to freezing temperatures.

## **Installation Guide**

### **Expandable hose with valve**

1. Before you start using expandable hose, ensure to firmly affix the rubber inside(already installed) the female coupling to prevent leaking.
2. Append the female end of the expandable hose to the water source.
3. Turn the ON / OFF valve off.
4. Turn the water on at the source. Gradually increase the water pressure.  
The hose will automatically expand up to 3 times its original length.
5. When the hose is fully expanded, turn the ON / OFF valve to the on position, and use the hose like any ordinary garden hose.  
**Note:** When used without a spray nozzle, the hose will contract several feet or more when the water is turned on.
6. After use, turn the water off at the water source.
7. Open the ON / OFF valve and allow the water in the hose to drain. If you are using a nozzle then open the nozzle. As the water begins to drain from the hose, it will automatically contract back.

## **SAFETY WARNINGS**

1. Intended for outdoor watering applications only
2. Not for hot water use
3. Do not leave under pressure when not in use
4. Do not leave unattended children to use it
5. Do not leave out on freezing temperatures
6. Store indoors in winter
