Thanks for choosing SPARKULAR® PORTABLE PACK, we hope it will spark up your show. Please read the following manual carefully before operating this product.

Safety Instructions

- Unauthorized repairs are prohibited, as they may cause serious incidents.
- Keep SPARKULAR® Portable Pack dry and do NOT use in rain or snow
- Please remember to recharge it every month, no matter use it or not
- Always fully charge the SPARKULAR® PORTABLE PACK after each show
- Frequent over-discharge can cause the battery to fail. To prevent battery discharge
- please maintain a certain amount of electricity and remember to charge it timely after use

Description

SPARKULAR® PORTABLE PACK is a battery dock specially designed for SPARKULAR® mini and SPARKULAR®. It ensures SPARKULAR® series products get rid of the dependence on the main power supply, and achieve real wireless control. It is an ideal choice for outdoor events, weddings, mobile displays, etc.

Technical Specifications

- MODEL: SP0520 / SP0521
- DIMENSION: 266×235×130mm
- WEIGHT: 7.5kg
- OUTPUT: 220V(SP0520)/110V(SP0521), 500W \ BATTERY CAPACITY: 24V10AH
- Work Temp.: -10 ~ 50
- Casing Color: Black / White optional

Interface

- POWER IN/OUT: compatible with stage effects plugs, can also realize cascade charge and use with power link cables.
- 110V / 220V AC Output: Power output for SPARKULAR® / SPARKULAR® mini.
- 5V DC Output: Power supply for wireless DMX.
- LCD Screen: shows the voltage of the battery, which indicates the electricity quantity.
- UPS Switch: charging switch

Charging

1. When connected with AC, SPARKULAR® Portable Pack will automatically switch to charging mode, it takes approximately 4h to be fully charged, and when the voltage on the LCD screen reaches 29V, means it is fully charged. Please continue to charge for about 1h when the voltage reaches 29V. When charging is complete, the internal charger will automatically switch to non-charging mode.
2. When charging, SPARKULAR® / SPARKULAR® mini can be used normally, it will not consume the power from the battery.
3. UPS ON-OFF should switch to OFF status when charging.

Usage

1. When using SPARKULAR® / SPARKULAR® mini on it (not connect AC), please turn on the UPS ON-OFF switch.
2. In a low battery, the device will alarm, please recharge it.
3. SPARKULAR® mini can be used on SPARKULAR® Portable Pack directly.
4. Due to the power limitation, for SPARKULAR®, please set it at low power consumption mode, otherwise will cause UPS halted. SPARKULAR® set up as below:

Press and hold the “ENTER” key for 3s, enter the SPARKULAR® factory menu, press “MENU” to change the interface find the “Low Power Mode” interface as below, and set it at “ON” status. If can't find the “Low Power Mode” interface (available for software version V2.2 and above), please contact the SHOWVEN service team for a software update.

Low Power Mode

ON

Maintenance

- Please fully charge the SPARKULAR® PORTABLE PACK if not used for some time, and turn off the UPS ON-OFF to avoid system drain battery power.
- Remember to recharge it every month matter use it or not.
