SIGALUX

Sigalux 2475682701 LED Light Bulbs

Launch Date: July 25, 2023

Price: \$19.99

Introduction

The Sigalux 2475682701 LED Light Bulb is a long-lasting and energy-efficient light bulb that can be used in both homes and businesses. It gives off 800 lumens of light while only using 8 watts, which makes it a great replacement for standard 60-watt incandescent bulbs. The soft white light makes the room feel warm and inviting. The Sigalux 2475682701 can be used for up to 25,000 hours, so it doesn't need to be replaced as often. This saves time and money. It gives you quick brightness and doesn't need any warm-up time, whether you use it at home or at the office. It fits standard E26 medium base plugs and has Energy Star certification, so it's a cheap option for anyone who wants to use less energy and leave less of an impact on the environment. With the Sigalux 2475682701 LED Light Bulb, you can get stable lighting that also saves energy.

Specifications

- **Brand:** Sigalux
- **Light Type:** LED
- **Wattage:** 8 watts (equivalent to 60W incandescent)
- **Bulb Shape Size:** A19
- **Bulb Base:** E26
- **Light Color:** Soft White (2700K)
- **Voltage:** 120 Volts (AC)
- **Brightness:** 800 lumens
- **Material:** Plastic
- **Color Rendering Index:** 80

- **Power Consumption:** 8 Watts
- **Size:** 4 Pack (4 bulbs)
- **Product Dimensions:** 5"W x 4.06"H
- **Energy Efficiency:** Energy-efficient, saving up to 80% on energy consumption

Package Includes

- 4 A19 LED Bulbs (Standard pack of 4)
- Warranty: 3 years manufacturer warranty
- Packaging: Safe and environmentally friendly packaging to protect the bulbs during shipping

Features

- **Energy-efficient:** The Sigalux 2475682701 LED Light Bulbs are brighter than a 60-watt light bulb but use only 9 watts of power. This function saves energy and lowers your electricity bills, making it a green choice for your home or business.

**Friendly to the Environment
& Your Wallet**

Only \$1.14 energy cost per year

Replace less often than incandescent

- **Long Lifespan:** These LED bulbs have an amazing 25,000-hour lifespan, which is a lot longer than regular incandescent bulbs. This means that they don't need to be replaced as often, which saves money in the long run. This could last up to 13.7 years if it is used for 3 hours every day.
- **Soft White Light:** These bulbs give off a 2700K soft white light that makes any room feel warm and cozy. The warm glow is great for beds, living rooms, or any other room you want to make feel cozy and comfortable.

- The Sigalux 2475682701 LED lights have a high lumen output of 800 lumens, which makes them perfect for general lighting in both home and business settings. This level of light will make your rooms bright without being too bright.
- **Dimmable:** The Sigalux 2475682701 LED lights can be used with most dimmer switches, even though they aren't dimmable. This gives you the freedom to change the amount of light based on your mood or the task at hand, making the lighting experience unique to you.
- **Instant On:** When you turn these bulbs on, they become fully bright right away. Because they don't need to warm up, they are a useful and easy choice for lighting your home or office.
- **Friendly to the environment:** The Sigalux 2475682701 LED lights don't contain any harmful chemicals like mercury, so they are a better choice for the environment than regular bulbs. They can also be recycled in their entirety, which helps make the world cleaner and greener.
- **Compatible with:** These LED bulbs are made to fit into any E26 medium base socket. This means they can be used with a lot of different light sources, like ceiling fans, table lamps, and other common types. It's easy to use as a straight replacement for CFL, halogen, and 60W incandescent bulbs.

- You can save up to \$83.33 with the Sigalux 2475682701 LED light bulb if you use it for three hours a day at an average rate of 11 cents per kWh. With an annual cost of only \$1.14, this light bulb saves you a lot of money on energy costs.
- The Sigalux 2475682701 LED Light Bulb is UL-listed, which means it meets strict safety standards. The fact that it is Energy Star certified also means that it works very efficiently. This makes it a safe product that can be used in both homes and businesses.

Usage

- **Home Lighting:** Perfect for use in living rooms, kitchens, bedrooms, and hallways to provide bright and comfortable lighting.
- **Office Lighting:** Ideal for workspaces, desks, or conference rooms, where bright and clear illumination is required.
- **Outdoor Lighting:** Suitable for outdoor fixtures, patios, and garden areas when protected from direct weather exposure.
- **Commercial Applications:** Great for commercial spaces such as restaurants, shops, and hotels, where both efficiency and quality lighting are essential.

Care and Maintenance

- **Handling:** Always handle the bulb by the base to avoid contact with the LED light or any sensitive components.
- **Cleaning:** Turn off the light and allow it to cool before cleaning the bulb. Use a soft, dry cloth to wipe the surface. Avoid using harsh chemicals or abrasive materials that could damage the bulb's surface.

- **Storage:** If storing spare bulbs, keep them in a cool, dry place away from direct sunlight and heat sources to preserve their lifespan.
- **Installation:** When installing, screw the bulb into a compatible **E26 medium base** socket. Make sure the power is off before installing to avoid any electrical hazards.
- **Disposal:** Dispose of the bulb responsibly according to local recycling regulations. The **Sigalux 2475682701 LED** bulb is fully recyclable.

Troubleshooting

- **Flickering or Buzzing:** If the **Sigalux 2475682701 LED** bulb flickers or buzzes, check for issues with the dimmer switch, power supply, or fixture. Ensure the bulb is installed correctly and that the dimmer is compatible with LED lighting.
- **Not Lighting Up:** If the bulb does not light up, confirm that it is securely installed in a functional socket and that the power supply is working.
- **Dimming Issues:** If the bulb does not dim as expected, verify that the dimmer switch is compatible with LED technology. Older dimmer switches may not be suitable for LED bulbs.
- **Sudden Light Loss:** If the bulb stops working unexpectedly, check if it has reached the end of its lifespan (usually around 25,000 hours). If so, replace it with a new bulb.

Pros and Cons

Pros	Cons
Energy-efficient and cost-saving	Not compatible with all dimmer switches
Long lifespan reduces replacement frequency	Limited to standard E26 base fixtures
Instant-on capability	Non-dimmable options available
