Silkland S1409 USB C to DisplayPort 1.4 Adapter

Specifications

- Name: USB C to DisplayPort 1.4 Adapter
- Input: USB C
- Output: DisplayPort
- Resolution: 8K@60Hz, 4K@144Hz
- Attention: Not Compatible with HDMI/Lightning

Product Usage Instructions

Step 1: Connection

Insert the USB C end of the adapter into your device's USB C port.

Step 2: DisplayPort Connection

Connect the DisplayPort end of the adapter to the DisplayPort input on your monitor or display device.

Step 3: Resolution Adjustment

Ensure your device's resolution settings are configured to support 8K@60Hz or 4K@144Hz for optimal display quality.

Step 4: Use

You can now use your device and enjoy high-resolution content on your display.

FAQ

Q: Is this adapter compatible with HDMI or Lightning connections?

A: No, this adapter is specifically designed for USB C to DisplayPort connections and is not compatible with HDMI or Lightning devices.

Q: What is the maximum resolution supported by this adapter?

A: The adapter supports resolutions up to 8K@60Hz or 4K@144Hz for a high-quality viewing experience.

Q: Where can I find more information or support for this product?

A: For user manuals, FAQs, and additional support, please visit [Silkland TechSupport](#).

Federal Communications Commission (FCC) Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. this device may not cause harmful interference, and
2. this device must accept any interference received, including interference that may cause undesired operation.

Warning: Any changes or modifications not expressly approved by the grantee of this device could void the user's authority to operate the device.

Notes: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful

interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures.

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

IC Statement

This digital apparatus complies with CAN ICES-003(B)/NMB-003(B).
