IMPORTANT SAFETY INFORMATION

To reduce the risk, follow these basic safety precautions.

WARNING

- Before using check that the voltage power corresponds to the one shown on the appliance nameplate.

- This appliance must be grounded.

- Avoid the use of an extension cord because it may overheat and cause a risk of fire. However, if it is necessary to use an extension cord:

1. Use only extension cord with grounding plug.
 2. The marked rating of an extension cord must be equal to or greater than the rating of this appliance.
 3. Do not operate if any component, including the cord or plug, is damaged.
 4. Unplug the unit before cleaning by hand and when not in use.
- Children or mentally/physically unable personnel are not allowed to operate the ice maker.

- Do not place the power cord in such a way it could be pulled on by children or cause a tripping hazard.
- Closely watch children who are near the unit when making ice.
- Do not use water that is micro-biologically unsafe or of unknown quality.

- Do not remove any safety, warning, or product information labels from the unit.

- Do not touch the evaporator with your hands while the ice maker is operating.
- Do not plug or unplug the unit with wet hands.

- The unit must be properly installed and located following the installation instructions before it is used. The unit is for indoor household use only.

- Do not store or use flammable vapors or liquids near the unit.
- Do not immerse any part of the unit in water.

- Do not attempt to disassemble, repair, modify or replace any part of the ice maker without permission.

WARNING

FIRE OR EXPLOSION HAZARD Flammable Refrigerant.

This unit contains an isobutane refrigerant, also known as R600a, a natural gas with high environmental compatibility.

However, it is also combustible. Adhere to the warnings below to reduce the risk of injury or property damage.

1. When handling, installing and operating the unit, care should be taken to avoid damage to the refrigerant tubing.

2. Disposal of the unit under Federal and Local Regulations. Contact your local authorities for the environmentally

safe disposal of your refrigerator.

3. Keep ventilation openings in the unit enclosures or the built-in structure clear of obstruction.

4. Do not place the unit near heat sources such as an oven.

5. Ensure a minimum of three inches of clearance around the side and back walls of the unit for proper air circulation.

6. Do not place the unit in direct sunlight.

PRODUCT INTRODUCTION

1. Large Viewing Window

2. Ice Full Sensor
3. Ice Shovel
4. Maximum Water Fill Line
5. Air Exhaust Fan
6. Control Panel
7. Drain Plug
8. Ice Basket
9. Ice Scoop

CLEANING AND MAINTENANCE

To keep your ice tasting fresh and the unit looking great, we recommend cleaning the unit once per week.

MANUAL CLEANING

SELF-CLEANING (30MIN PROCESS)

⚠ DO's & DON'T's while cleaning and maintaining

- Do not use organic solvent, boiled water, detergent, strong acid and strong alkali etc. for cleaning.
- Please empty the water reservoir and dry it for storage if the unit is not used for a long time.
- When the unit is not to be used for a long duration, drain the water completely & dry the interior.
- Store in a well vented area.

PRODUCT SPECIFICATION

Model	SLIMOI S/SLIMOI R/SLIMOI G1
Voltage/Frequency	11 5V/60Hz
Ice-making Current	1.7A
Ice-harvest Current	2.0A
Working Power	sl60VV
Water Reservoir	2L (0.53gal)
Ice Basket Capacity	1.32LBS (0.6NG)
Ice Making Rate	26LBS per day
Ice Shape	Bullet
Ice Size	Small or Large
Material	ABS, PP

TROUBLESHOOTING

Problem	Possible Causes	Solution
---------	-----------------	----------
