Description of parts

1. Pins
2. Ground wire
3. Control button / LED indicator light

Safety Instructions

- For intended use only, as described in this manual.
- For indoor use only.
- Before use, inspect the device and its parts. Do not use in case of damage.
- Do not let moisture come into contact with any electrical parts.
- Never touch the device with wet hands.
- Do not insert any foreign objects into any opening of the device.
- Do not attempt to repair, disassemble or alter the product yourself.
- Not suitable for dimmers and electronic switches.

Operation

1. Search for the Smart Life app in the App Store or Google Play, or scan the QR code.

2. Install the app and create an account.
3. Plug the smart power socket into the wall socket.
4. Activate Bluetooth on your device and reset the smart power socket to enter pairing mode.
5. Connect your device to the smart power socket via Bluetooth.

6. Follow the on-screen instructions of the app to complete the installation and operate the smart power socket.

Note:

- If the connection fails, try using Access Point mode.
- The smart power socket reconnects to your device automatically after initial pairing.

How to reset?

1. Press and hold the control button for 5 seconds until the LED indicator light flashes rapidly. The device switches to Wi-Fi mode.
2. Press and hold for another 5 seconds until the LED indicator light flashes slowly. The device will switch to Access Point mode.

LED state

Device status	LED indicator light
SmartWi-Fi	Flashes quickly
Access Point mode	Flashes slowly
On/Off	Is switched on/ off
Reset	– Flashes quickly (first reset) – Flashes slowly (second reset)

Maintenance

- If necessary, clean the device with a slightly damp towel and wipe it dry with a soft cloth.
- Unplug before long-term storage.
- Store it in a dry, cool place away from direct sunlight.
