SILVERSTONE Argon V140 ARGB High Performance 140mm CPU Cooler

Product Information

The product is the Argon V140 ARGB, manufactured by SilverStone Technology Co., Ltd. It is a computer component designed for Intel and AMD processors. The product comes with a limited 1-year warranty in North America and Australia. For warranty information in other regions, customers are advised to contact their reseller or SilverStone authorized distributor. The product warranty covers defects or damages resulting from defective production, provided that the product is used in accordance with the instructions provided in the manual and without misuse, overuse, or other inappropriate actions. The warranty does not cover damages caused by natural disasters or if the product has been disassembled, modified, or fixed without authorization. The warranty mark/stickers should not be removed or broken. Loss or damages resulting from conditions not listed above are not covered under warranty. SilverStone Technology's maximum liability under warranty is limited to the current market value of the product.

Product Usage Instructions

1. Intel LGA 115x / 1200 Fan installation:

- 1. Confirm that you have the correct connector, pin definition, and direction of your pin header.
- 2. Ensure that the ARGB controller or motherboard has the same +5V pin definition as the ARV140-ARGB.
- 3. Connect the GND, D, and +5V pins of the mainboard ARGB header to the corresponding pins on the product.
- 4. Connect the mainboard CPU FAN header to the product.

2. Intel LGA 1700 Fan installation:

- 1. Follow steps 1 and 2 mentioned above.
- 2. Connect the GND, D, and +5V pins of the mainboard ARGB header to the corresponding pins on the product.
- 3. Connect the mainboard CPU_FAN header to the product.

3. Intel LGA 2011 / 2066 Fan installation:

- 1. Follow steps 1 and 2 mentioned above.
- 2. Connect the GND, D, and +5V pins of the mainboard ARGB header to the corresponding pins on the

product.

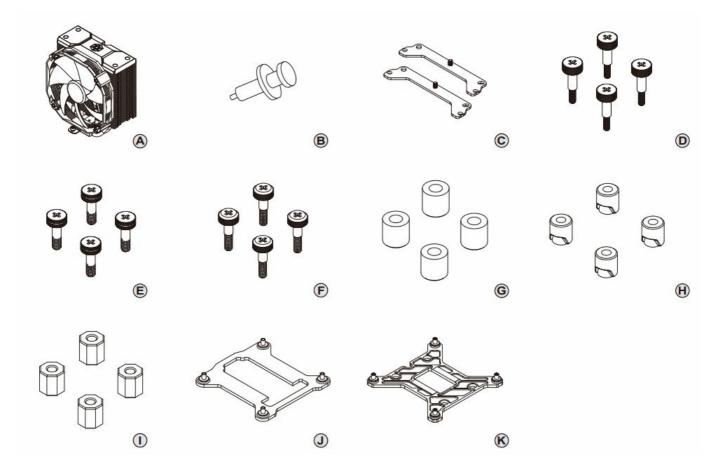

3. Connect the mainboard CPU_FAN header to the product.

4. AMD Fan installation:

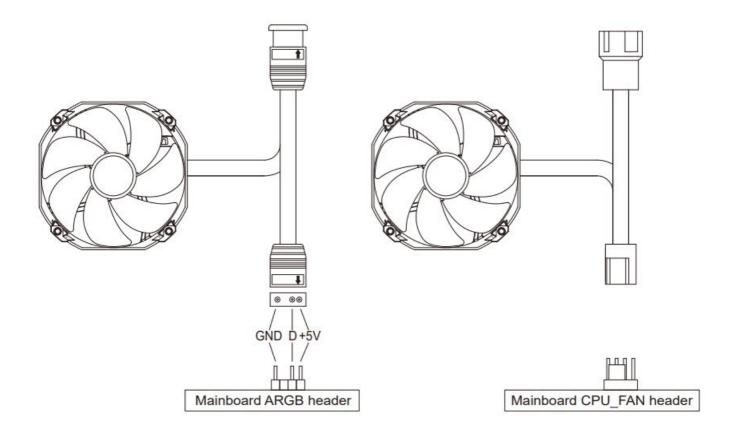

- 1. Confirm that you have the correct connector, pin definition, and direction of your pin header.
- 2. Ensure that the ARGB controller or motherboard has the same +5V pin definition as the ARV140-ARGB.
- 3. Connect the GND, D, and +5V pins of the mainboard ARGB header to the corresponding pins on the product.
- 4. Connect the AMD backplate included with the motherboard to the product.

Note: It is important to carefully follow the instructions and ensure proper pin connections for successful installation and usage of the product.

Contents

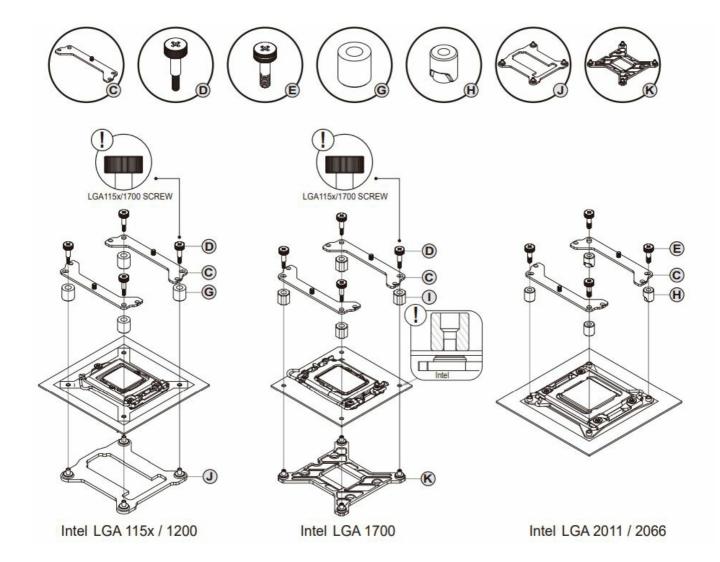

Fan installation

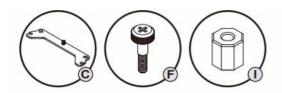

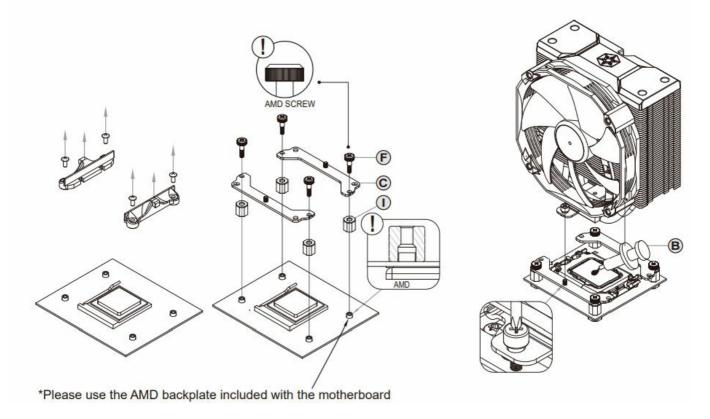

- Please confirm the connector, the definition and direction of your pin header when connecting cables.
- Ensure ARGB controller / motherboard has same +5V pin definition as ARV140-ARGB.
