**SIM LAB SLF006 Swivel Mounting Point**

## Product Specifications

- **Model:** Swivel Mounting Point
- **Version:** 1.0
- **Last Updated:** 10-10-2024
- **Profile:** 80X40
- **Slot-Nut:** M8 and M6
- **Length:** 400mm and 450mm
- **Tools Needed:** 4/5/6MM Hex Wrenches

## Product Usage Instructions

### Before You Start

Make sure you have all the necessary components listed in the manual before starting the assembly process.

### Assembly Steps

1. Insert Slot-Nuts into the designated slots as shown in the diagram.
2. Use a smaller Hex wrench to assist in placing the slot nuts securely.
3. Take care when handling the magnet base as it is very strong.
4. Ensure the magnet catch is properly installed to prevent swiveling of the mounting point during use.
5. Adjust the countersunk bolts on the joints to adjust tension as needed.

## Frequently Asked Questions

- **Q: What should I do if I have questions about the assembly or the manual?**
  - **A:** If you have any questions, please contact our support department at [support@sim-lab.eu](mailto:support@sim-lab.eu) for assistance.
- **Q: Is there a community where I can seek help from experienced users?**
  - **A:** Yes, we have a Discord server where experienced customers can assist. Visit [www.sim-lab.eu/discord](https://www.sim-lab.eu/discord) to join.
- **Q: Any tips for printing the manual?**
  - **A:** If you decide to print the manual, consider the environment and print at 100% scale without borders for best results.

## BEFORE YOU START

- Thank you for purchasing this Sim-Lab product! On the following pages, you will find detailed instructions on assembly. This requires only a set of simple tools and some of your time.
- Please check the bill of materials before starting and make sure all the parts are delivered.
- When adding side mounts, ease of entry is a recurring topic that customers bring up. We wanted to be able to open and close the side mount, to get in and out of your cockpit more easily.
- Our magnetic catch keeps our swivel mounting point closed during use and solves this problem once and for all!
- Please take heed of the warnings on the packaging/parts if these apply to you. Do not hesitate and ask for help or supervision during assembly, we value your health.
- This product only consists of what the name implies. To be able to mount joysticks or throttles, you will need to make an additional purchase of the appropriate accessory such as the 'Joystick Mount' or 'Throttle Mount'.

### Inserting Slot-Nuts:

- You got excited, finished the build, and put the caps on, but forgot to install one element. Do not worry. It happens to everyone. In this diagram, you can see how to insert a Slot-Nut directly into the slot from the side.
- You can also use one of your smaller Hex wrenches to help wiggle the Slot-Nut in place.

## Tools needed

-  **CAUTION** Interaction with metallic objects may produce Pinch Hazards.
- Persons with Medical Implants KEEP BACK 12 inches.
- Strong Magnetic Field

## INSTALLATION INSTRUCTION

Please take care when handling this part. The included magnet is very strong.

The magnet catch prevents the mounting point/side mount to swivel open during use.

Adjust the countersunk bolts on the joints top adjust their tension.

## HARDWARE KIT

CENTER POST PROFILE KIT			
#	Part	QTY	Note
A1	80X40 Length=450mm	1	
A2	80X40 Length=400mm	1	
HARDWARE KIT			
A3	Magnet base	1
