Sim Local eSIM Activation Guide Application User Guide
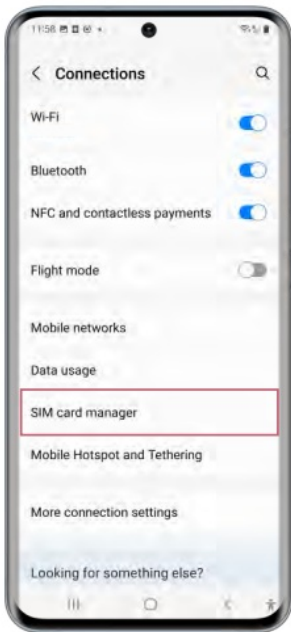

Settings

In the settings on your device, selec "Connections".
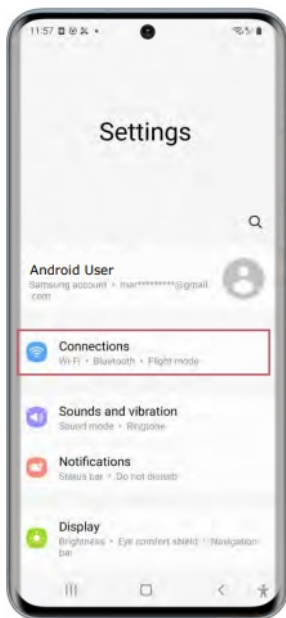

Connections

Once you have done this, select "SIM Card Manager".

SIM Card Manager

Next select "Add Mobile Plan".

Add Mobile Plan

The device will begin to search for available plans.
You can choose "Scan Carrier QR Code".

Scan QR Code

The device camera will then open up on screen.
Use the camera to scan the QR code.
If for any reason you are unable to scan the QR
Code, you can select "Enter Activation Code" to input the Manual Activation Code.
The rest of the journey is the same for both QR
Code and Manual Code activations.

Scan QR Code

The device will register the QR code once it is in the camera frame.

Add Mobile Plan

Click "Confirm" to activate and install the eSIM to the device.

Adding Mobile Plan

The eSIM will then begin to activate and install.
This can take a few minutes.

Sim Card Manager – eSIM Activated

Once set up is complete, you will be brought back to the "SIM Card Manager" screen to see which of your SIMs are active and inactive.
The newly activated eSIM will be at the top of the eSIM plan list and will be set to active/switched on.
From here you can click on your active eSIM to see more details about it.

eSIM Details

In this screen you can select an icon to make your eSIM more identifiable in the list of eSIMs on your device, rename your new eSIM, find out further information and remove the eSIM from your device.
