## S45-2624 24 Port Loaded Patch Panel

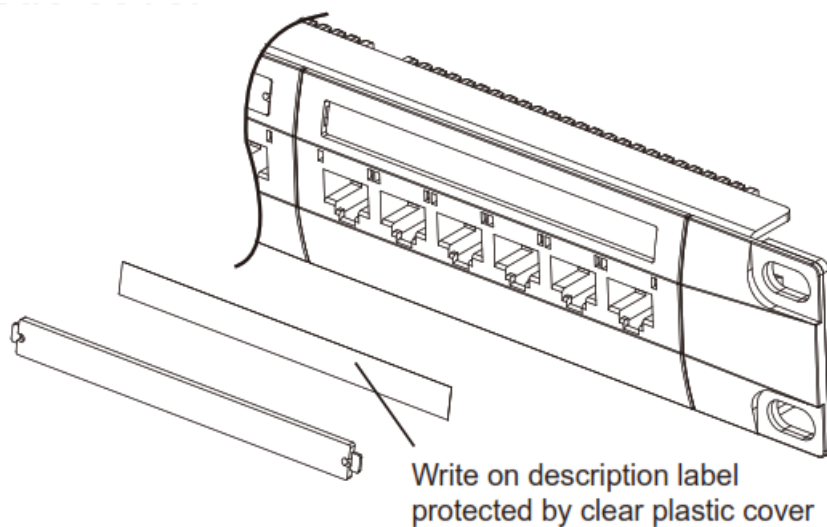

1. Punch down cables to 110/Krone IDC Connector according to TIA568A/B wiring instruction label.

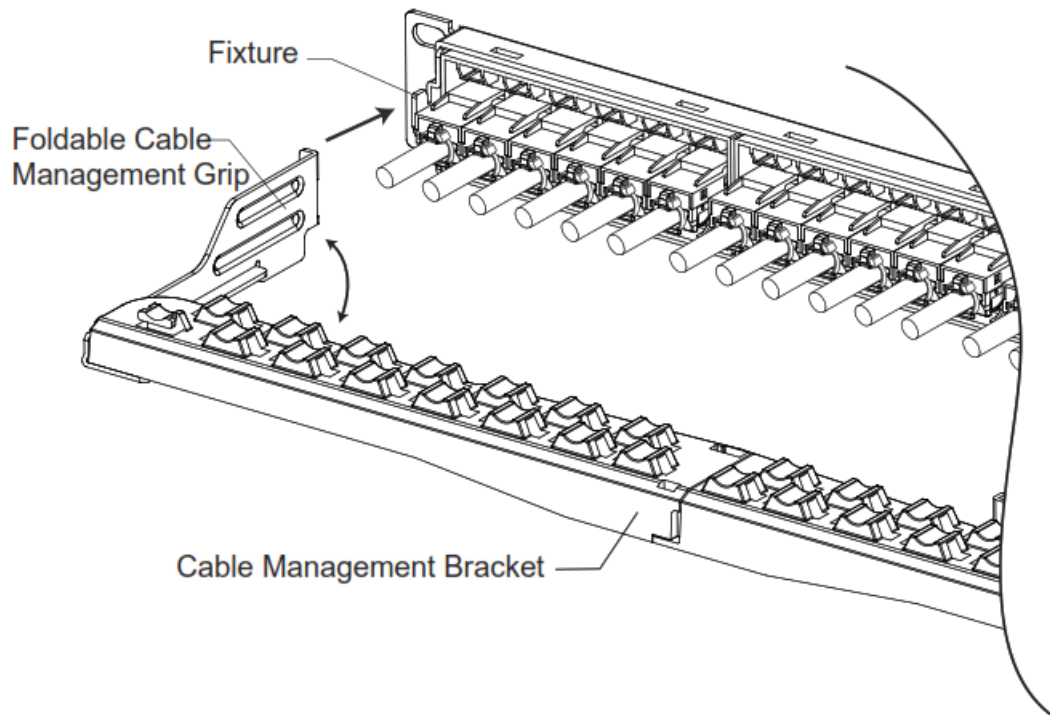

2. Punch down solid cable to each port until termination is completed.

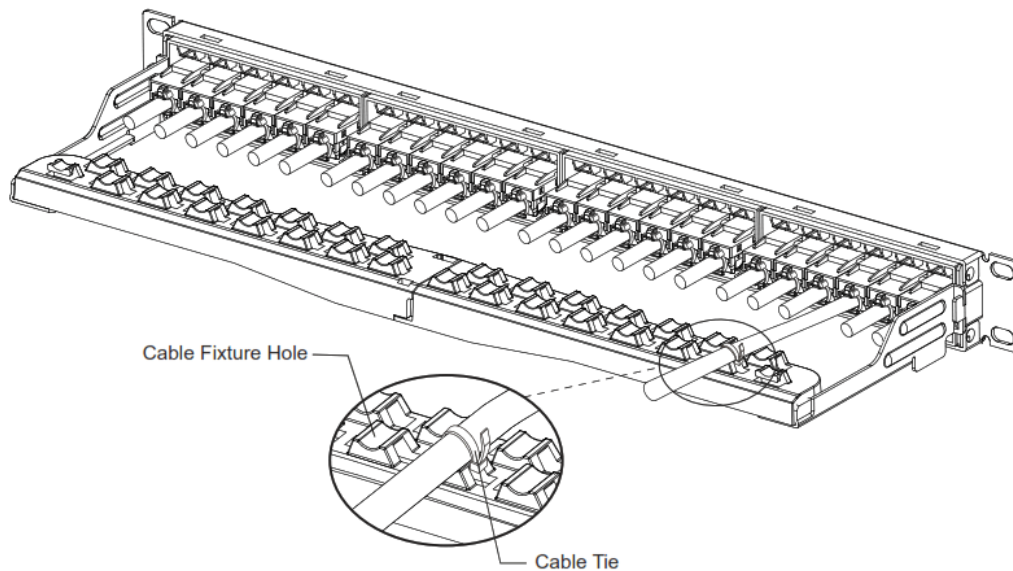

3. Write port description on label and put on plastic cover

4. Expand the Foldable Cable Management Grip, hook the grips into fixture at both ends of the patch panel.

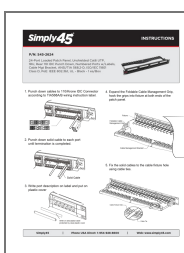

5. Fix the solid cables to the cable fixture hole using cable ties.
