Please scan the QR code on the back of the product to download the APP and user instructions for detailed operation.

Technical Parameters

Power Input	Standard 5V direct current
Average working current	45mA
Battery Model/Type	602030
Battery capacity	3.7V
Battery Nominal Voltage	300mAh
USB connection type	Type-C
Product size	212(L)x36(W)x17(H)mm
Product weight	280g
Size with box	227(L)x55(W)x35(H)mm
Weight with box	350g
Accessories	power cable x 1

FCC Warning Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement

The device has been evaluated to meet general RF exposure requirement.

The device can be used in portable exposure condition without restriction. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference.
- (2) This device must accept any interference received, inducing interference that may cause undesired operation.
