Operation

Using the LINE IN Jack

1. Connect the unit as described previously. Press the ON/OFF button to turn the unit on.

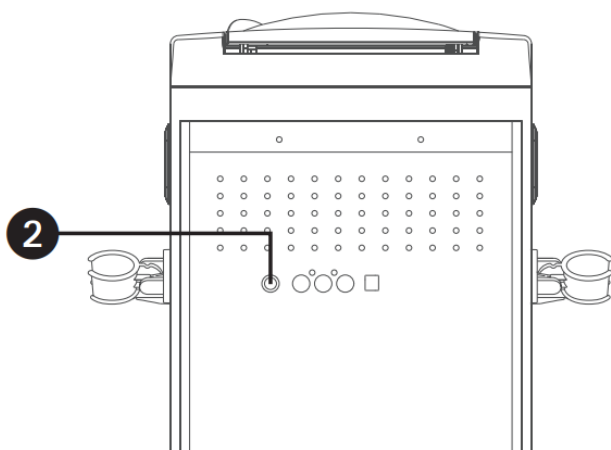

2. Connect the external unit to the LINE IN

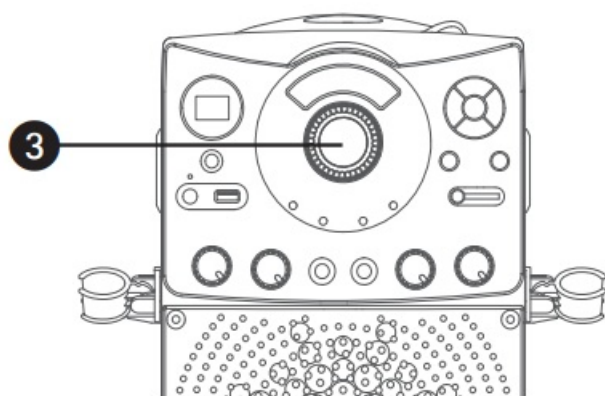

Jack on the back of this unit. Connecting an external unit will allow the audio to be played through your Singing Machine. LINE IN function is automatically selected once the audio cable is plugged in.

Notes:

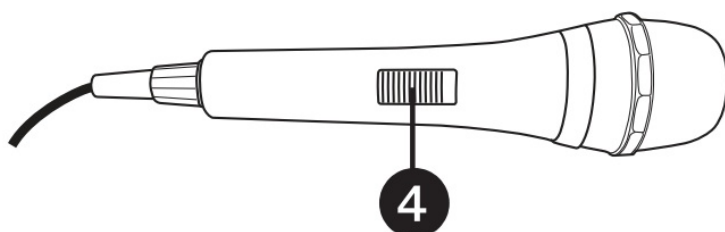

- It is highly recommended to set the volume on the auxiliary unit to 1/3 or lower to avoid distortion.
- Skipping files/tracks is not possible on this unit when using an external device.

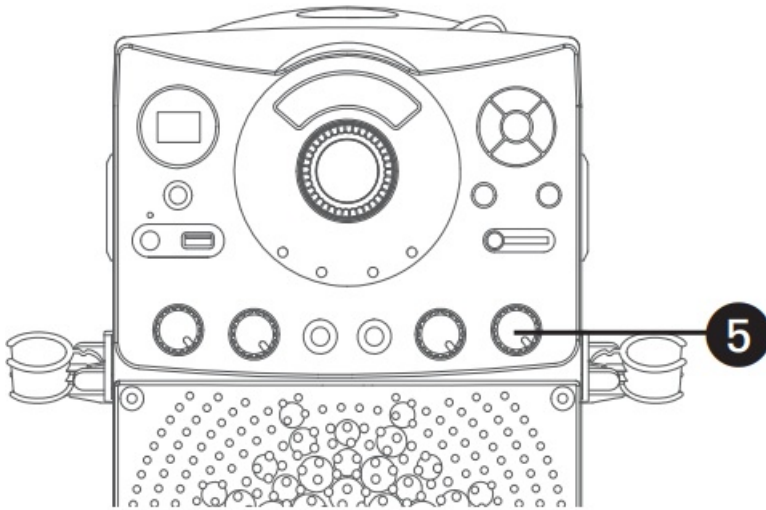

3. Adjust the volume using the MASTER VOLUME control on this unit or your external device's volume control.

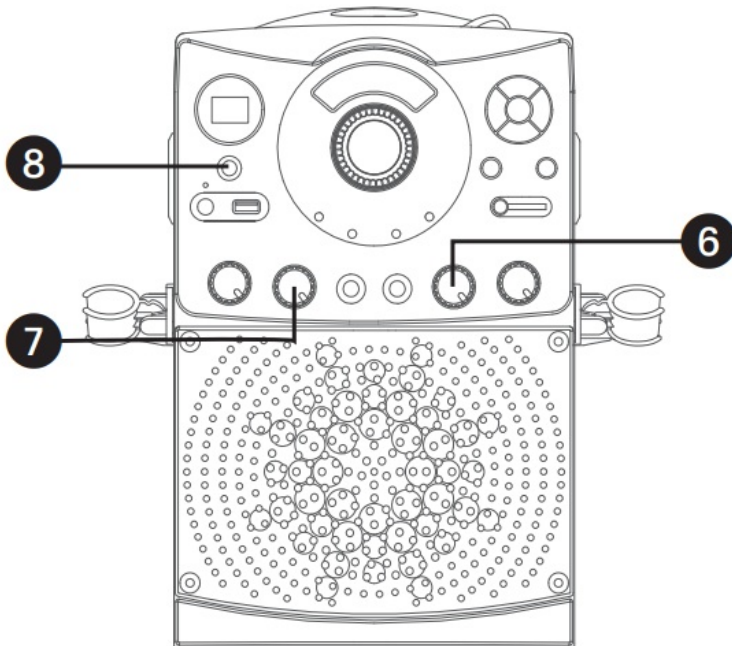

4. Connect microphone(s) and slide the ON/OFF switch on the microphone to the ON position.

5. Adjust the MIC VOLUME control as desired. Increasing this control will increase the volume of both microphones.

6. Rotate the ECHO control to add an echo effect to your voice. Rotate towards MAX to increase the echo effect.
7. Adjust the balance between the speakers using the BALANCE control.
8. Press the ON/OFF button to turn the unit off.

Where to Download MP3+G Files

Helpful Hints:

The .mp3 and .cdg files are delivered for download in a single, compressed MP3+G.zip file. The MP3+G file cannot be played as a .zip file on a USB flash drive. To play karaoke songs using a USB flash drive, the MP3+G .zip file must be unzipped as follows:

- Connect a USB flash drive to your computer.
- Download the MP3+G file from your Digital Locker and save the .zip* file to a folder on your computer.
- Double click the .zip file to open the .zip (you will see the .mp3 and .cdg files).
- Drag and drop the .mp3 and .cdg files to the USB flash drive.
- Remove (eject) the USB flash drive from your computer.

Turn on the Singing Machine and connect the USB flash drive.

FAQ

Where can I get additional help with the file formats?
