SIO520E24 Edge Support System Stub Out Bracket With Flat Tabs, 1/8 in Hole Steel Galvanized

Position wide top lip over the back edge to hook onto bracket	Then align tooth with hole in bracket. Install the clamp from the flat side (face) of the bracket.	Use thumb and push wide lower lip onto bracket to engage the clamp.
1 	2 	3 
Install CTS pipe or stub out into pipe hole opening.	Push thumb tab down and slightly forward to engage both edges of the bracket.	Completed installation.
4 	5 	6 

Face of Stud

Use screws or nails to secure bracket to either the front or inside of stud.

Inside Stud

Bend in both tabs to fit the bracket inside the stud bay.

Narrow Stud Bays

For narrow stud bays, break perforation at the corner of the bracket to best fit the opening.

CAUTION: Brackets have sharp edges.

Wear gloves and use caution when installing the product.

WARNING: Cancer and Reproductive Harm.
