1. Gently press the clip on the left side of the camera and push it down

2. Insert USB-C cable and connect to charger or computer, etc.

### Inserting a MicroSD card

1. Gently press the clip on the left side of the camera and push it down

2. Push the clip on the left side of the camera

3. Insert memory card

Minimum card requirements.

## REPLACING THE BATTERY

1. Gently press the clip at the bottom of the camera and push it toward the side

2. Open the bottom cover

3. Replace the battery

## BASIC OPERATION

1. Hold down the shutter to turn camera on.

2. Release when logo shows.

3. Choose desired mode on touchscreen.

4. Press the shutter to take photos, or to start and stop video recording.

## USER MANUAL

We know you're excited to use your new SJ10 water-resistance series Action Camera, please take time to read this Quick Start Guide before doing anything with it. There's plenty you can do, so you need to familiarize yourself with the features now to get the most out of it.

1. This is a high-precision product. Do not drop.
2. Do not expose the unit to strong magnetic fields, such as electric motors, magnets and machinery that use strong radio waves.
3. Never leave the unit in high-temperature areas. Electronics and optics can be damaged under prolonged exposure to heat.
4. Although this model is waterproof without needing an additional housing, it is important to check that all seals are intact and all doors are properly closed before submerging the camera in water.
5. Always store extra batteries in a compartment away from any sharp metals and moisture.
6. Avoid extended periods of battery charging. Keep it away from children and pets while charging to avoid

accidents.

Do not dispose the camera or its battery in the garbage bin, find the nearest recycling facility for it.
