ASSEMBLY INSTRUCTIONS

PLEASE KEEP THIS MANUAL AS IT CONTAINS IMPORTANT INFORMATION

IMPORTANT SAFEGUARDS

Always enter the enclosure through the zipper opening of the net. High winds increase the chance of a trampoline with enclosure being blown over. Always secure your trampoline by using an anchor kit. Adequate overhead clearance is essential. A minimum of 24 ft from the ground level is recommended. Provide clearance for wires, trees, and other obstacles. It is recommended for at least 2 able bodied adults to set up the trampoline net.

CARE AND MAINTENANCE

While every attempt is made to ensure the highest degree of quality and protection in all equipment, we cannot guarantee complete exemption of injury. The user assumes all responsibility of injury due to use of this equipment. All merchandise is sold on this condition, and all equipment is used at the consumers risk.

LIABILITY

Always inspect your trampoline and enclosure before each use and regularly replace any worn, defective, or damaged parts.

Read the following instructions and warning to ensure the trampoline is safe to use and lasts as long as possible, follow all assembly and maintenance instructions at all times.

ATTACHING THE TOP OF THE NET

STEP 1

Remove your old net from the trampoline. With your new net, connect the straps to the pole cap handles.

Note: When attaching the straps of the net to the pole caps, do not tighten the straps all the way

STEP 2

Make sure there is slack in the straps when attaching to the arches. Tighten straps only after all sides of the net are up and attached.

NOTE: Make sure that the net is in between the Enclosure Pole and Safety Pad before attaching the Enclosure Pole to the Trampoline Frame.

ASSEMBLY INSTRUCTIONS

ATTACHING THE BOTTOM OF THE NET

STEP 1

Start by tying a knot through the V-ring closest to the enclosure entrance.

STEP 2

Thread the rope through the hole on the bottom of the net and back into the next V-Ring.

STEP 3

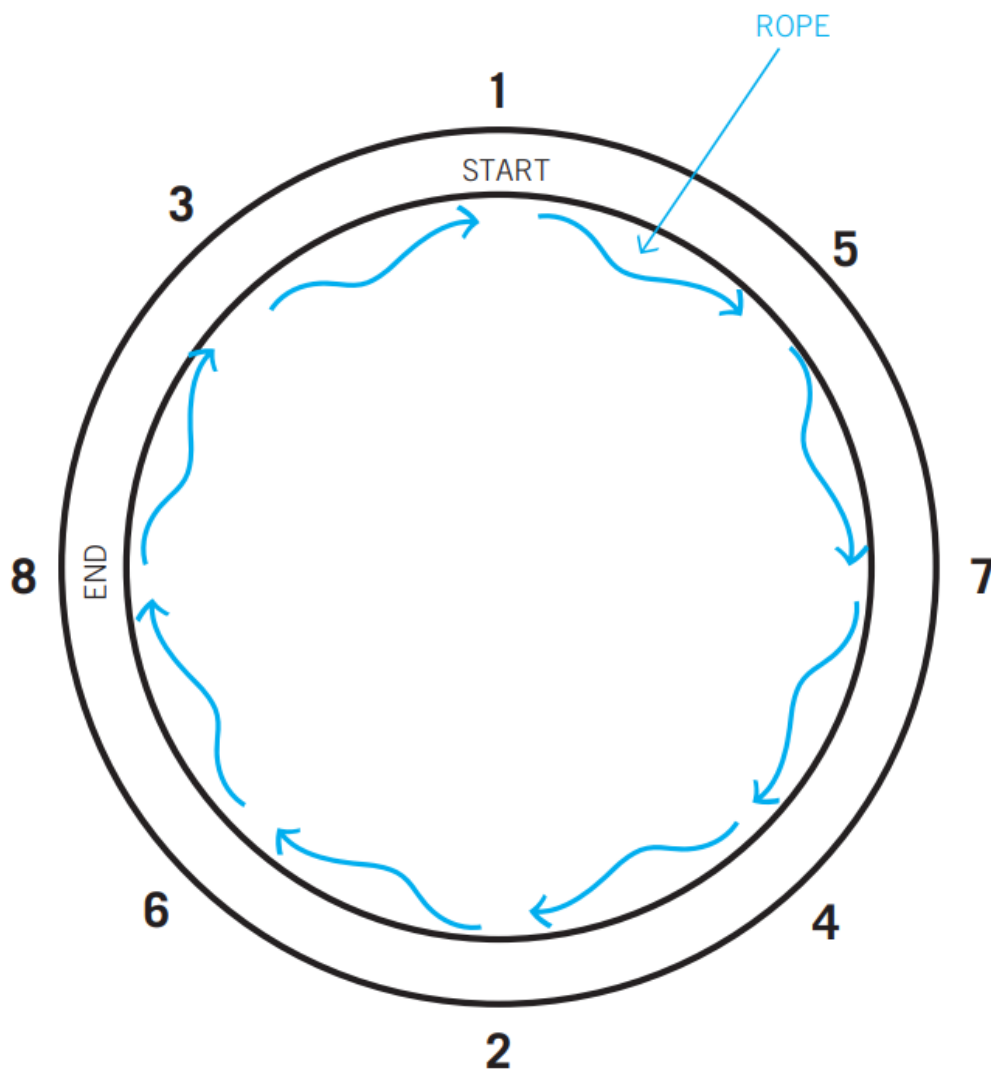

Continue until the rope ends and tie it off in a knot.

STEP 4

Repeat this process with the remaining ropes, following the pattern in the diagram to evenly distribute the spacing of the net. Do this along the length of the Net, making sure the Net is taut as you go

NOTE: Enclosure Pole number may vary

SkyBound, a Fuloo, LLC Company.

SkyBound is a registered trademark of Fuloo, LLC in the U.S. and other countries. All logos, names, characters, likenesses, images, slogans and packaging appearance are the property of SkyBound.

This object is subject to wear and tear. No warranties whether expressed or implied are provided.

Injury will likely occur with the use of a trampoline or any associated product. Use with supervision. Use at your own risk.

Only Use in a well-lit, well secured down area.

A PERSONAL MESSAGE FROM OUR CEO

When I shop, I am not just buying a product or service. I purchase why that brand focuses on what they do, what their corporate philosophy is, the quality of their products, and whether or not my personal core values align with that brand's vision. When I don't feel great about a company's brand, products, or how I'm being treated as a customer, then I know they are not delivering on what matters most: exceeding the customer expectation by delivering happiness with their products, quality, and service.

This primary focus is what drives our culture at Team Skybound. For supporting our vision, we would like to personally thank you for trusting us to deliver happiness to you and your family -Kiki (CEO) & Team SkyBound

"Nurturing the inner-child in all of us by uniting communities worldwide and promoting an active lifestyle."
