- 11 inch shaft

## HOW TO USE

### Constructing the Light

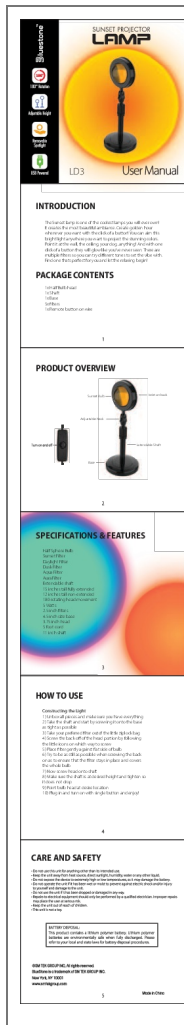

1. Unbox all pieces and make sure you have everything
2. Take the shaft and start by screwing it onto the base as tight as possible
3. Take your preferred filter out of the little ziplock bag

4. Screw the back off of the head portion by following the little icons on which way to screw
5. Place filter gently against flat side of bulb
6. Try to be as still as possible when screwing the back on as to ensure that the filter stays in place and covers the whole bulb
7. Now screw head onto shaft
8. Make sure the shaft is at desired height and tighten so it does not drop
9. Point bulb head at desire location
10. Plug in and turn on with single button and enjoy!
