SM Tek Group LDB2 Valve Cap Lights

INTRODUCTION

Biking at night can be extremely dangerous. Especially if you live in an urban/suburban area. Cars may not see you but with these valve caps you'll be hard to miss. The lights begin to go once you start pedalling and will alert everyone of your whereabouts. Never worry about being hit again.

PACKAGE CONTENTS

2x Valve Caps

HOW TO USE

1. First open your package and make sure you have both valves
2. Next you need to unscrew the valve to expose the batteries
3. There is a small piece of paper lodged into between the batteries and the power that way the battery isn't drained by the time you go to use them.
4. After you have activated both, Remove your bike valve and replace with new valve
5. Valve is motion activated so just secure it on and start riding.
