INTRODUCTION

Need a compact light that suddenly transforms into more? Here it is! This light starts off as a small disc and then opens up to unveil a mesh netting covering an LED light. On top, there is another LED light for use that you can use as more of a flashlight while the other light serves as more of a lantern

PACKAGE CONTENTS

HOW TO USE

1. Start by opening your box and making sure the light isn't damaged
2. Next, you need to screw the bottom compartment apart
3. Insert 3 AA batteries and close up the compartment
4. Next you're going to screw the other side open to expose the net
5. Press the power button and watch the lantern light up!
6. Enjoy!
