- Compatible with wireless charging devices
- Power: 10W Fast Charging
- Input: DCSV/ 2.0A, DC9V/1.67A
- Output: DCSV/ 1.0A, DCOV/1.2A

## HOW TO USE

### Constructing the Mount

1. Unbox all pieces and make sure you have everything
2. Take the mount head and line it up with mount bracket and shove on
3. Screw joint part onto the back of the mount but loosely
4. Leaving it loose will allow for the ball to pop in easily

5. Once the ball is in socket, tighten knob and make sure its tight
6. This is for both the suction cup and air vent clip
7. Place mount on dashboard or in vent in desire location
8. Next plug in the USB part of the wire to your power source
9. Plug the Micro B port into the mount head to power it up
10. Put your phone up to the mount and push the wings out to make sure they extend far enough that your phone can fit in
11. Push down with yoOur phone and push the feet down to make Sure that the wings close tight on the phone
12. Phone should immediately begin to charge – If not make sure your case isn't too bulky that is it blocking the charging power of the mount
