Smart Life TH05 Wi-Fi Temperature And Humidity Sensor with Backlight

Please read this manual carefully before use and keep it for future reference.

Product parameter

1. **Size:** 60*63*25mm
2. **Input voltage:** DC4.5V LR03*3
3. **Quiescent current:** $\leq 30\mu\text{A}$
4. **Low power undervoltage:** $\leq 3.5\text{V}$
5. **WiFi:** 802.11b/g/n 2.4GHz
6. **Working temperature:** $-10^{\circ}\text{C}\sim 55^{\circ}\text{C}$
7. **Working humidity:** 10%~90%RH

Appearance introduction

How to set up

- First, scan the QR code with your smartphone, or search the “Smart Life” app in the Google Play Store or APP Store to download and install the app.
- Register the app with your email address.

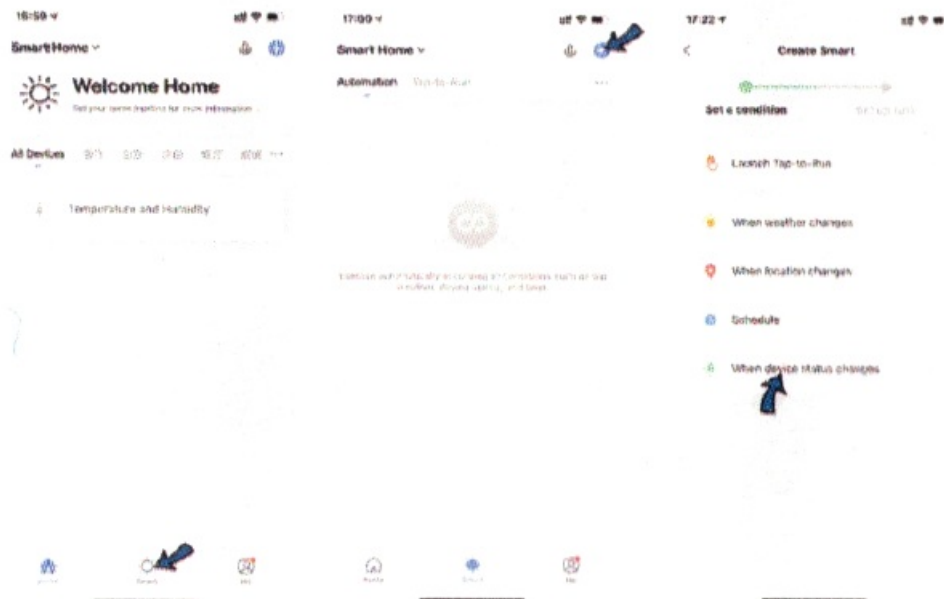

1. **Bluetooth mode:** First turn on the Bluetooth in your mobile phone → open the smart life app and choose “+” → press and hold the sensor for 5 seconds → The WiFi  icon will indicate on the sensor display. Then will see “Devices to be added: 1” on the mobile app. Finally, press “Go to add”, it will connect to the Wi-Fi network automatically.

4. Intelligent Linkage

When the ambient environment changes, you can do intelligent linkage. For example, the air conditioner will be on automatically when the room temperature surpasses 35°C. The humidifier will spray when the humidity is lower than 20% RH.

5. Share devices

You can share your added devices with your family members, so they can also monitor the ambient environment.

6. Temperature Unit Selection in APP

You can choose °C or °F as the temperature unit through the app.

7. Third-party Voice Control

Works with amazon alexa and Google Assistant.
