Board 6000 Smart Class Rooms Display

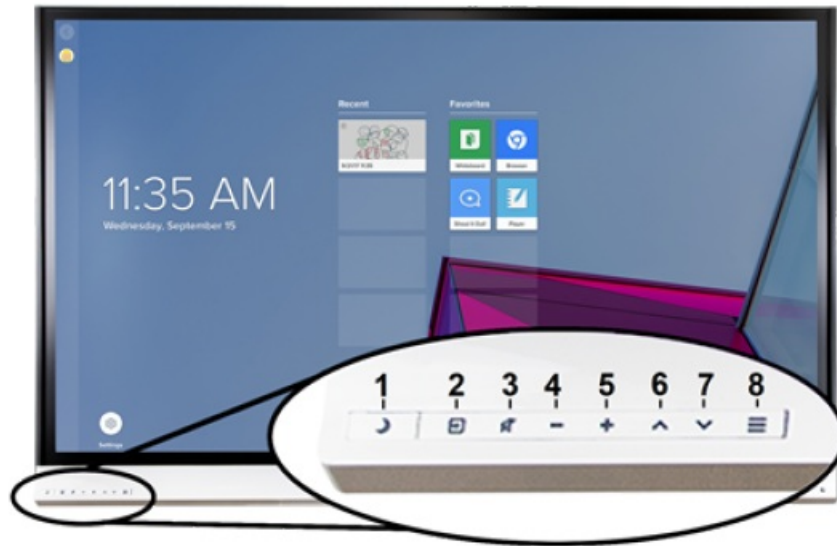

Turn on the display

Press the Standby button on the front control panel. OR If the Wake to Touch option is enabled, the display turns on when you touch the screen.

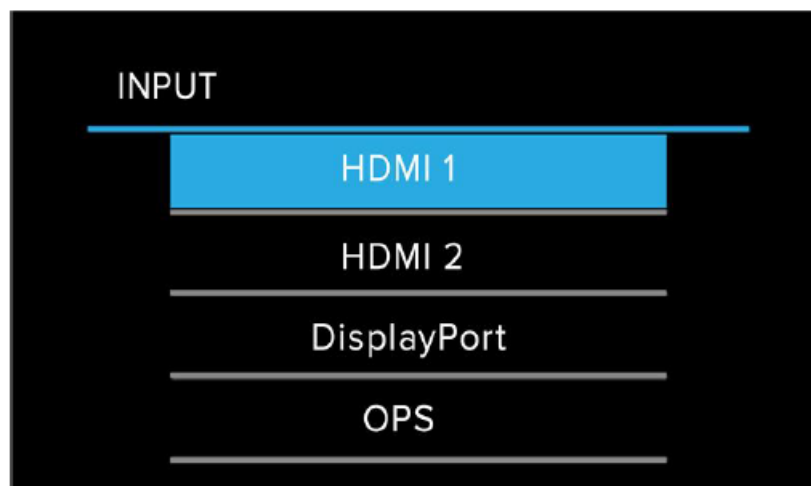

1. Standby
2. Input Select
3. Mute
4. Decrease
5. Increase
6. Move Up (menu)*
7. Move Down (menu)*
8. Menu*

*SPNL-6000-V3 only

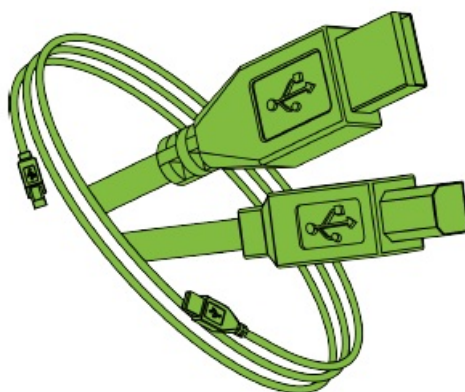

Show the connected computer's desktop

After connecting a computer, press the Input Select button on the front control panel until HDMI1, HDMI2 or DisplayPort is selected.

NOTE: Be sure to enable touch control of your computer by connecting a USB cable between the USB port in the display's side connection panel and a USB connector on your computer.

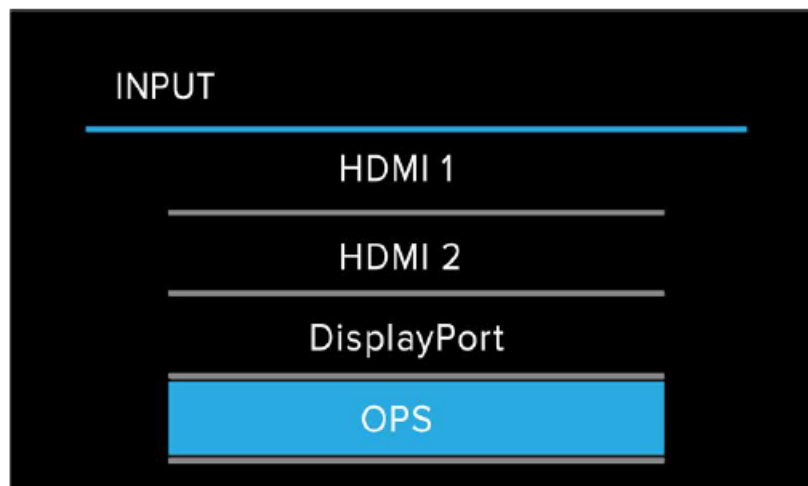

Use the iQ features

The display includes iQ features that you can use without connecting a computer. To access these features, tap

the Home button at the bottom of the screen. OR Press the Input Select button on the front control panel until OPS is selected.

NOTE: The option you select to use the board's iQ features varies with the model. Select iQ or the option that includes OPS (OPS, OPS display port, or OPS HDMI).

You can then use all the iQ features described in the SMART Board display teacher guide (smarttech.com/displayteacherguide).
