SmartyKat 38083 Electronic Motion Remote Controlled Mouse Cat Toy

Launch Date: March 12, 2020.

Price: \$14.99

Introduction

For keeping your cats happy, busy, and mentally sharp, the SmartyKat 38083 Remote-Controlled Mouse Cat Toy is the excellent choice. This toy is made to move like real game, which will make your cat want to hunt even more. It is made to keep cats of all ages interested because it has a real plush mouse with a tail that hangs down. With the remote control, you can move the mouse in different directions, giving your pet a fun game of chase. This engaging toy is small and light, so it's best to use it inside on a hard surface. Long-lasting, non-toxic materials make sure that kids are safe while they play for hours. The mouse runs on two AAA batteries and the remote on two AA batteries, so it's easy to take with you. SmartyKat's focus on sustainability is also shown in the eco-friendly materials it uses. This makes it a smart choice for pet owners who care about the environment. If you want to keep your home cats happy and healthy, you need the SmartyKat 38083 Remote-Controlled Mouse Cat Toy. With this clever toy, you can get your cat more active and bond with them at the same time.

Package Includes

- 1 SmartyKat Remote-Controlled Mouse Cat Toy
- 1 Easy-to-use remote control
- Instruction manual with tips for usage and care

Features

1. Playing with a remote

The SmartyKat Race 'N Chase Mouse Can Be Controlled by a Remote With Cat Toy, you can choose how your cat plays. You can make the mouse move in different directions with a remote that looks like a cat, just like real game does. It's easy to make fun playtimes for your cat with the responsive controls, which will keep their attention and feed their natural hunting habits.

2. Design Based on Life

There is a fuzzy plush body, soft felt ears, and a long, dangling tail on the mouse that make it look and feel like real prey. Cats can't stay away from this realistic design; it keeps them busy and feeds their natural urge to chase and bite.

3. Let's Play Together

Playing with you helps your cat fulfill its natural urge to hunt. The toy's jerky moves make it seem like a chase, which is good for your cat's mind and body. Cats that need more exercise to stay fit will love this play because it makes them move in a healthy way.

4. Easy to carry and light

Because it is small and light, the toy is perfect for use inside. This toy is small enough to store easily and take with you wherever you go, so your cat can play anywhere in the house.

5. Construction that lasts

The SmartyKat Race 'N Chase Mouse Toy is made of safe, high-quality materials. Because it's well-made, it can survive hours of play, even from enthusiastic cat hunters.

6. Runs on batteries

Two AAA batteries power the mouse and two AA batteries power the remote, which are included for the first use. To get the best results, you should replace these with good alkaline batteries. The battery-powered design makes it easy to take with you and gives your cat hours of fun.

7. Great for use inside

The SmartyKat Mouse Toy is great for cats that don't have access to the outdoors because it remains safe and fun to play with inside. Indoor cats can stay busy and have fun with it.

8. Gets All Cats To Play

Cats of all ages can play with this toy, from young, active babies to older cats. Your cat can play with it in a variety of ways, depending on their level of energy and natural instincts.

9. **Helps people work out**

The moving parts of the mouse make your cat want to chase and jump, which turns playing into a fun workout. Your cat will stay healthy and fit if they do this exercise, which keeps them busy and happy.

10. **Feel Like Real Prey**

The feel and movement of the mouse are like real prey, which will make your cat want to hunt. Cats really enjoy playing with it because it feels real thanks to its fuzzy texture, soft felt ears, and long tail.

11. **Better performance**

To give you the best play experience, the toy is made to work best on flat surfaces and within 12 feet. Make sure there are no things in the way of the remote and the mouse so they can work together easily.

12. **Eco-Friendly Way of Thinking**

SmartyKat cares about the environment. Materials that are good for the earth, like recycled and renewable ones, were used to make the toy. It is safe for your pet and good for the environment because of this.

13. **Standards for Child Safety**

SmartyKat puts safety first by making sure that all of its toys meet strict safety standards for kids. Every product goes through a lot of tests to make sure it's safe for both pets and kids who might play with it.

14. **Promise to Be Safe**

SmartyKat makes sure that its toys don't have any sharp edges, long lines, open springs, small parts, or harmful materials like magnets or Mylar paper. This dedication to safety means that your pet friend can play without any worries.

Usage

- **Setup:**

Insert 2 AAA batteries into the mouse and 2 AA batteries into the remote control. Ensure the batteries are securely placed.

- **Turn On:**

Switch on the mouse and remote control. The mouse will respond to the remote commands.

- **Control Movement:**

Use the remote to guide the mouse in different directions, keeping your cat entertained.

- **Supervised Play:**

Engage with your cat during playtime to encourage bonding and ensure safety.

Care and Maintenance

- **Cleaning:**

Wipe the toy with a damp cloth to remove dust or debris. Do not submerge in water as it is battery-operated.

- **Battery Maintenance:**

Remove batteries when the toy is not in use to prevent corrosion and extend the life of the product.

- **Storage:**

Store in a cool, dry place when not in use to maintain its functionality.

- **Inspect Regularly:**

Check for any signs of wear or damage. Replace the toy if any part becomes unsafe for your pet.

Troubleshooting

The toy isn't moving properly:

- Ensure the batteries are fresh and installed correctly.
- Confirm there are no obstacles blocking the remote signal.

Short battery life:

- Replace with high-quality alkaline batteries for longer usage.

Remote not responding:

- Ensure the remote is pointed directly at the toy and is within the 12-foot range.

The mouse isn't attracting the cat:

- Try introducing the toy during your cat's active hours or add catnip to increase interest.

The toy stops functioning:

- Check for battery exhaustion or internal damage. Replace the batteries or contact SmartyKat customer service for assistance.

Pros and Cons

Pros	Cons
Engaging design stimulates hunting instincts	Requires batteries that are not included
Remote control enhances interactive play	May not work well on soft surfaces
Promotes exercise and physical activity	Supervision required during use
