## Product Usage Instructions

### Initial Setup

1. Remove all packaging materials and ensure the machine is placed on a stable and level surface.
2. Fill the water tank with clean, cold water up to the desired level. Use the water hardness test strip to determine the hardness of your water.
3. Plug the machine into a power outlet and turn it on.
4. Allow the machine to heat up for a few minutes until the indicator light signals that it's ready for use.

### Making Espresso

1. Ensure the portafilter is clean and dry before use.
2. Grind your coffee beans to the desired fineness and fill the portafilter with the ground coffee.
3. Tamp the coffee grounds gently and evenly using the tamper provided.
4. Insert the portafilter into the machine's group head and secure it by turning it clockwise.

5. Place a cup or mug under the group head to collect the espresso.
6. Press the appropriate button to start the brewing process.
7. The machine will stop automatically once the desired amount of espresso has been dispensed.

## Cleaning and Maintenance

Regular cleaning and maintenance will ensure optimal performance and longevity of the coffee machine.

1. After each use, remove the portafilter and discard the used coffee grounds. Rinse the portafilter with water and wipe it dry.
2. Wipe the machine's exterior with a soft, damp cloth to remove any spills or stains.
3. Periodically clean the water tank, drip tray, and removable parts with warm, soapy water. Rinse thoroughly and dry before reassembling.
4. Descale the machine regularly to remove mineral deposits. Refer to the user manual for specific instructions on descaling.

## FAQ (Frequently Asked Questions)

- **Q:** How do I determine the water hardness?
- **A:** Use the water hardness test strip included with the product. Dip it into a sample of your water and compare the colour change to the provided chart to determine the water hardness level.
- **Q:** Can I use pre-ground coffee instead of grinding my beans?
- **A:** Yes, you can use pre-ground coffee. Just make sure to adjust the grind size setting accordingly, if applicable.
- **Q:** How often should I describe the coffee machine?
- **A:** The frequency of descaling depends on the water hardness and usage. As a general guideline, it is recommended to describe the machine every 2-3 months or as indicated by the manufacturer.
