How to Wear
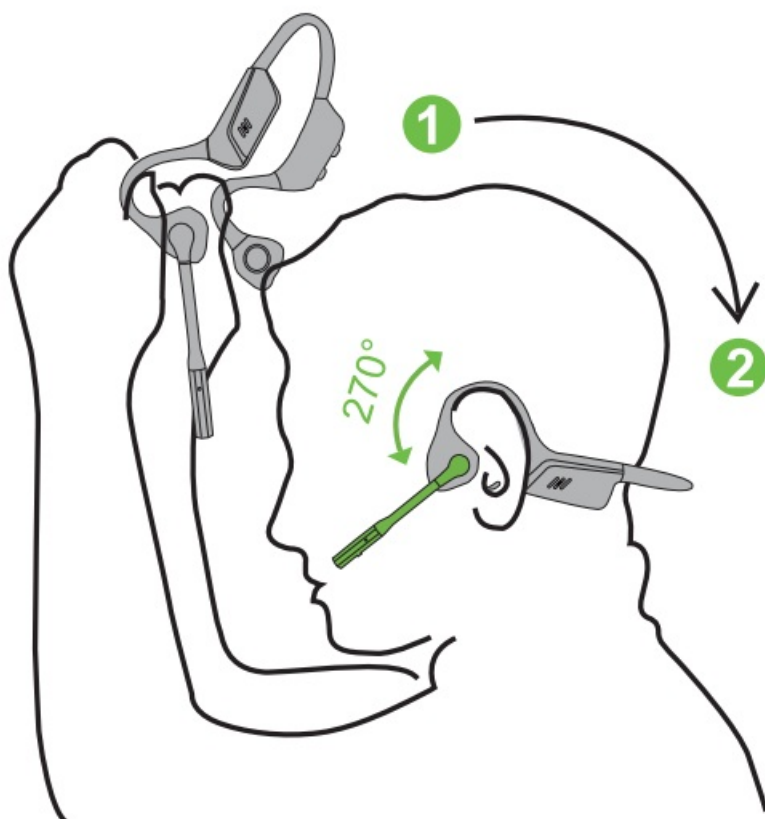

Charging 1ips

When the headset is at low battery, there will be a "battery Low" prompt and the red light will flash intermittently. The LED indicator will tum from red to blue when charging is complete.
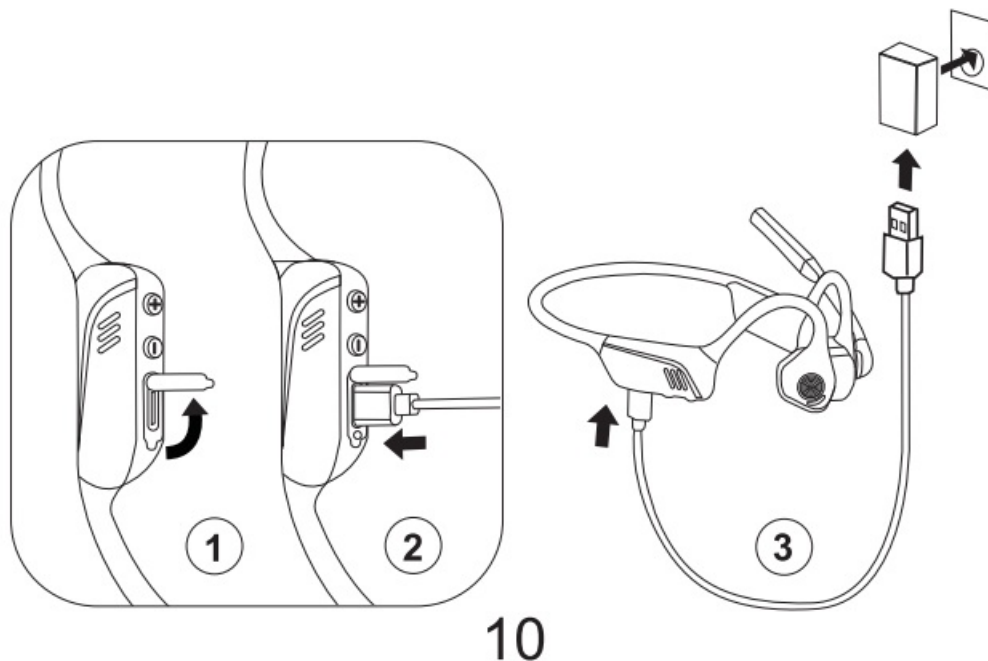

Precautions

1. Please use the Type-C USB cable to connect the DC+5V adapter to power or charge the product to prevent the product from working abnormally;
2. Because the wireless signal of Bluetooth will be blocked and absorbed by surrounding objects, try to place it in an unobstructed position with the Bluetooth connected device during use, so that you can enjoy better quality music.

Storage and Maintenance

LK02 headset:

- Store the headset in a cool, dry place. The working temperature should be 0-45°C(32-113°F). Working in a cold/hot environment, a highly humid area, or an extremely low air pressure may reduce the battery life.
- Keep the product away from heat sources, direct sunlight, combustible gas or other liquids.
- Keeping the charging port dry before connecting to the charger will reduce the risk of damage.
- This headset is water-resistant, but is not waterproof. Please do not submerse the headset in water.
- Clean the headset with a soft dry cloth.
- Do not charge right after exercising, in case there's sweat inside the charging port, which could lead to circuit burning while charging.
- After storage for a long period, please charge the headset before Warning
- To avoid the risk. of explosion, fire, or leakage from toxic chemicals, please do not disassemble the product or replace, deform, or mutilate the battery

Dongle:

Store the product in a cool or dry place. The working and storage temperature should be 0°C-55°C (32°F-131°F).

Never allow children and pets to play with the product- small parts may be a choking hazard. If accidental

ingestion happens, seek immediate medical attention.

Keep the produce away from heat sources, direct sunlight, combustible gas, or other liquids.

Do not disassemble the product.

Unplug, discontinue use, and contact us if the product overheats or has a damaged outer casing or plug.

 Warning

To avoid the risk of explosion, fire, or leakage from toxic chemicals, please do not disassemble the product or replace, deform, or mutilate the battery
