## Fingerprint identification

- Setting fingerprint identification makes it more convenient to open certain functions.

## Absorption Rate (SAR) information

This mobile phone meets the government's requirements for exposure to radio waves. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluations of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons regardless of age or health. Device type: Smooth 5.5 Max (FCC ID: GAO-55MAX22) has also been tested against this SAR limit. The power output listed is ERP for frequencies below 1GHz and EIRP for frequencies above 1GHz. SAR compliance for body-worn\ operating configurations is limited to the specific configurations tested for this filing. Body-worn operations are restricted to belt clips, holsters, or similar accessories that have no metallic component in the assembly and must provide at least 1.0 cm separation between the device and the body of the user. End-users must be informed of the body-worn operating requirements for satisfying RF exposure compliance. The highest reported SAR for head,body-worn accessory, product specific (wireless router), and simultaneous transmission use conditions is 0.583 W/kg, 0.600 W/kg, 0.600 W/kg and 0.740 W/kg respectively.

## Warranty

For more information about the warranty of your phone, after sales service and repair centers and/or a complete version of the User Guide please visit [www.smoothmobile.us](http://www.smoothmobile.us)
