# Software s AVMS macOS Software Instructions
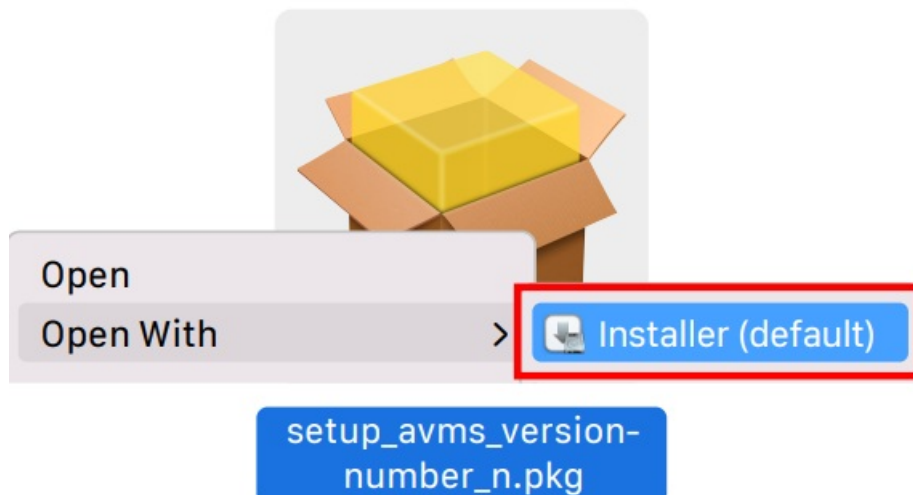

**Contents**

**Software s AVMS macOS Software**

**Install AVMS macOS instructions**

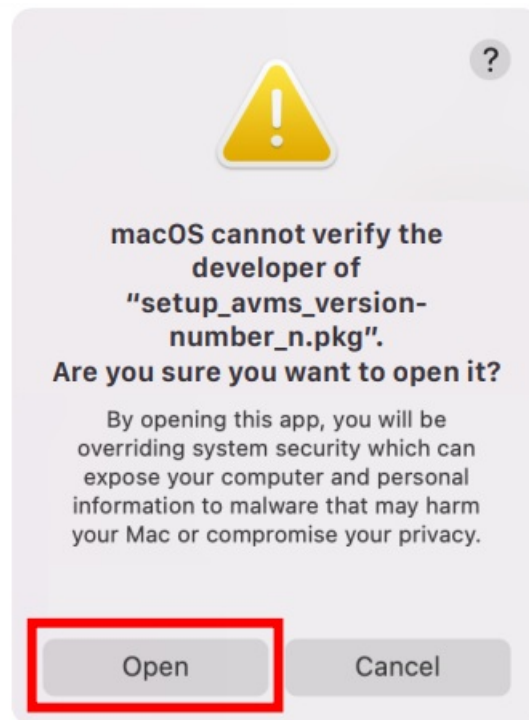

setup_avms_version-
number_n.pkg.zip

1. After downloading AVMS for macOS from **www.clintonelectronics.com/downloads**, find the ZaIP file and unzip/extract.

Open
Open With       >    Installer (default)
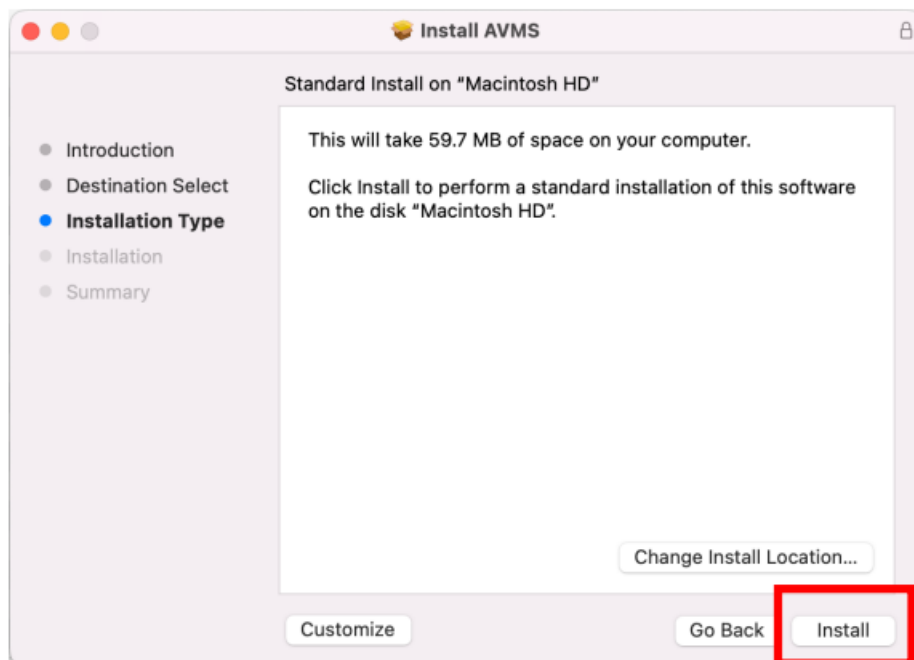

setup_avms_version-
number_n.pkg

2. Open the unzipped '.PKG' version of AVMS. On the first install of AVMS: right-click on the .PKG file, then select Open With > Installer.
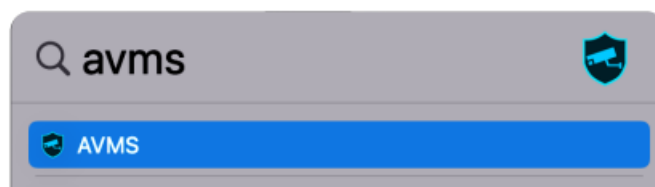

3. Then, click Open when prompted with the message stating macOS cannot verify the developer.

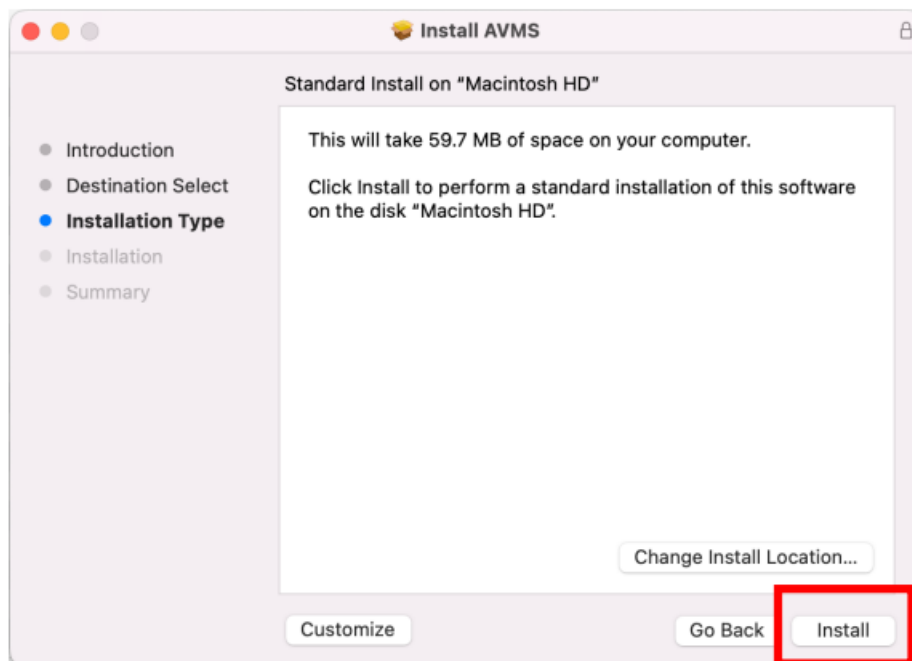

4. Follow the Installer prompts, then click the Install button.

5. Enter the password when prompted, then click Install Software to finish the install.

6. Search for AVMS to open, or open from Applications/AVMS.

After opening AVMS, if desired, right-click on the icon in the dock and select: Options > Keep in Dock.
