How to Install

Product Installation

1. **Unscrew the Fixing Ring:** Begin by unscrewing the fixing ring from the lamp holder. This ring secures the lamp shade in place.
2. **Remove the Lamp Shade:** Once the fixing ring is loosened, carefully remove the lamp shade from the lamp holder. Set the lamp shade aside temporarily.
3. **Tighten the Fixing Ring:** After removing the lamp shade, tighten the fixing ring back onto the lamp holder. Ensure it is securely fastened to prevent any wobbling or instability.
4. **Fix the Lamp Shade:** With the fixing ring securely in place, position the lamp shade over the lamp holder. Align the holes or slots on the lamp shade with the corresponding tabs or screws on the lamp holder.
5. **Secure the Lamp Shade:** Once properly aligned, press down or rotate the lamp shade until it is firmly fixed onto the lamp holder. Ensure it is stable and sits evenly on the holder.
6. **Install the Bulb:** Finally, insert the desired bulb into the lamp holder. Ensure the bulb is compatible with the lamp's specifications and wattage limitations. Screw the bulb into place securely, but avoid overtightening to prevent damage.

Usage

1. Assemble the lamp according to the instructions provided in the manual.
2. Insert the desired bulb into the lamp socket. (Ensure the bulb wattage does not exceed the recommended maximum.)
3. Plug the lamp into a power outlet.
4. Turn on/off the lamp using the switch located on the cord.

5. Position the lamp on your bedside table or desired location to achieve the desired lighting effect.

Care and Maintenance

- Regularly dust the lampshade and base with a soft cloth to prevent dust buildup.
- Avoid using harsh chemicals or abrasive cleaners, as they may damage the lamp’s finish.
- If the lamp gets wet, immediately unplug it from the power source and allow it to dry completely before use.
- Periodically check the electrical cord for any signs of wear or damage, and replace if necessary.
- To prolong the lifespan of the lamp, avoid placing it in direct sunlight or near heat sources.

Troubleshooting

Issue	Possible Cause	Solution
Lamp does not turn on	1. Unplugged or loose connection	1. Check if the lamp is securely plugged into a power outlet. If loose, reconnect firmly.
	2. Faulty bulb	2. Replace the bulb with a new one.
Lamp flickers or emits buzzing sound	1. Loose bulb connection	1. Check if the bulb is properly screwed into the socket. If loose, tighten securely.
	2. Incompatible bulb	2. Ensure that the bulb type and wattage are compatible with the lamp’s specifications.
	3. Electrical issues	3. If problems persist, consult a qualified electrician to inspect the wiring and connections.
Lamp emits dim light	1. Low wattage bulb	1. Replace the bulb with a higher wattage bulb, ensuring it does not exceed the lamp’s maximum wattage rating.
	2. Dirty or dusty bulb	2. Clean the bulb surface with a soft cloth to remove any dirt or dust that may be obstructing the light output.
Lamp base feels hot to the touch	1. Overheating due to prolonged use	1. Turn off the lamp and allow it to cool down. Avoid using the lamp for an extended period to prevent overheating.
	2. Insufficient ventilation	2. Ensure the lamp is placed in a well-ventilated area to dissipate heat effectively.
Lamp switch not functioning	1. Damaged switch mechanism	1. Inspect the switch for any visible damage or wear. If damaged, replace the switch or contact the manufacturer for assistance.
	2. Loose wiring connections	2. Check the wiring connections inside the lamp base. If loose, tighten or reconnect as necessary.
Lampshade is damaged or torn	1. Physical damage or wear	1. If the lampshade is torn or damaged, replace it with a new one compatible with the lamp.
	2. Poor maintenance	2. Regularly clean the lampshade with a soft cloth to prevent damage and maintain its appearance.
