SOLIGHT WO213 Luminaire LED Light

Instruction manual for LED light Solight WO213

Dear customer, thank you for purchasing our product. For its safe and full functioning, please read these instructions carefully and adhere to them to avoid product misuse or damage. Please prevent unauthorized use of this appliance and always observe all rules for using electric appliances. Keep these instructions for future reference. This appliance is intended for home use only (indoors). This product shall not be exposed to high humidity (e.g. in a bathroom); avoid contact with liquids. When connecting the light directly into the electrical network without supplied power cord, it is needed to disable electricity and the installation must be performed by qualified personnel only.

Input: AC 220 – 240V, 50Hz

The light is not dimmable

WARNING: Cut off power before installation

Post up installation
