SonicAlert HA360M-II Complete Home Alerting Solution

Product Usage Instructions

1. Remove all contents from the box.
2. Slide open the battery compartment on the bottom of the HA360M-II.
3. Take out the rechargeable battery and plug the connection wire into the top right corner of the battery compartment.
4. Replace the battery and slide the battery door back into position.
5. Plug in the power supply in the 5.1V 2A DC IN port on the back of the unit.
6. Push the cover over the port down until it snaps off, then plug in the power supply.
7. Once inserted, snap the cover back into place pushing up.
8. Plug the other end of the power supply into a 120V outlet.
9. If using the HA360V-II vibrator accessory, ensure it is plugged in to avoid display messages.
10. Press the SETUP button to initiate setup.
11. Follow on-screen instructions to configure settings such as vibration sensitivity.

FAQ

- **Q:** How do I activate the rechargeable battery?
- **A:** Follow the steps provided in the user manual to open the battery compartment, connect the battery, and replace the cover.
- **Q:** Where do I plug in the power supply?
- **A:** Plug the power supply into the 5.1V 2A DC IN port on the back of the unit and then connect it to a 120V outlet.
- **Q:** How do I configure the alert settings?
- **A:** Press the SETUP button and follow the on-screen instructions to set up alert preferences such as vibration sensitivity.

IMPORTANT SAFETY INSTRUCTIONS

When using your HA360M-II, basic safety precautions should always be followed to reduce the risk of fire, electric shock or injury to persons including the following:

1. Read and understand all instructions, if there is something you do not understand please call our customer service.
2. Do not use any electrical product near a bathtub, wash basin, kitchen sink, or laundry tub, in a wet basement, or close to a swimming pool or anywhere else there is water.
3. Do not use a telephone anywhere near a gas leak.
4. Avoid using a telephone (other than a cordless type) during a storm. There may be a risk of electrical shock from lightning and electrical storms.
5. Always unplug this product from the wall power outlet before cleaning. Do not use liquid cleaners or aerosol cleaners on the product. Use a damp cloth for cleaning only.
6. Always place this product on a stable surface. Serious damage and/or injury may result if the product falls.
7. Do not cover slots, vents, or openings on this product. This product should never be placed near or over a radiator or heat register. This product should not be placed in a built-in installation unless proper ventilation is provided.
8. Always operate this product using electrical voltage as specified on the base unit or in the user guide. If you are not sure of the voltage in your home, consult your dealer or local power company.
9. Do not place anything on the power cord. Install the product where no one will step or trip on the cord.
10. Never push any objects through the slots in the product. They can touch dangerous voltage points or short out parts that could result in a risk of fire or electrical shock. Never spill liquid of any kind on the product
11. Do not overload wall outlets or extension cords as this can increase the risk of fire or electrical shock.
12. Unplug this product from the wall outlets and refer servicing to the manufacturer under the following conditions:
    - **A.** When the power cord or plug is damaged or frayed.
    - **B.** If water or liquid has been spilled into or on the product.
    - **C.** If the product has been exposed to rain or water.
    - **D.** If the product does not operate normally by following the operating instructions. Adjust only those controls that are covered by the operating instructions. Improper adjustment may require extensive work by a qualified technician.
    - **E.** If the product has been dropped or if the case has been damaged in any way.
13. To reduce the risk of electrical shock, do not take this product apart. Opening or removing covers may expose you to dangerous voltages or other risks. Incorrect reassembly can cause electric shock when the appliance is subsequently used.
14. Never install telephone wiring during a lightning storm.
15. Never install telephone jacks in damp areas.
16. Never touch uninsulated telephone wires or terminals unless the telephone line and power supply have first been disconnected.
17. Always use caution when installing or modifying telephone lines.
18. Use only the power cord and batteries indicated in this manual. Do not dispose of batteries in a fire. They may explode. Check with local codes for possible special disposal instructions.
19. This product should not be exposed to dripping or splashing and no objects filled with liquids, such as vases, shall be placed on or near the product.
20. Batteries shall not be exposed to excessive heat, such as sunshine fire, or any other heat source.

HOMEAWARE® II GETTING STARTED

Remove all contents from the box.

To activate the rechargeable battery

1. Slide open the battery compartment on the bottom of the HA360M-II by pushing left on the arrow and lifting on the opposite end and the same time (see link below for video).
2. Take the battery out and plug the connection wire into the top right corner of the battery compartment. Replace the battery and slide the battery door back into position (see link below for video).

BLUETOOTH AND HOMEAWARE APP

Be notified on the HA360M-II when you receive incoming calls and text messages on your smartphone.
Notifications are shown on the HA360M-II. Receive notifications on your smartphone when an event occurs on the
HomeAHA360-II system (doorbell, help, smoke, etc).

1. Install the HA360M-II app on your smartphone. Available for iOS on the Apple App Store®, and for Android™

   on the Google Play™ Store.

2. Follow the instructions in the HomeAware™ app to link your smartphone with the HA360-II.

USB CHARGING See Back of Unit
The HA360MC-II is equipped with a convenient USB charging port on the back panel that allows you to recharge
many brands of mobile phones, portable music players, and other handheld devices.

TELEPHONE ALERT FOR LANDLINE PHONES See Back of Unit
The HA360M-II has the capability to alert you to a standard landline telephone. Follow the steps below to install a
telephone to the HA360M-II.

1. Place the HA360M-II Main unit close to an RJ11 standard telephone wall jack. If the provided telephone line

   cord is not long enough to reach the HA360M-II you will need to either move the HA360M-II closer to the input

   jack or purchase a longer line cord.

2. Plug the phone line cord into the RJ11 wall jack.

3. Plug the opposite end of the phone line cord into the back of the HA360M-II where it says TEL LINE. You are now ready to receive alerts for all phone calls coming in from this phone.

4. You can also utilize the HA360M-II to add a phone to its input jack on the back of the unit. Simply plug your phone into the back where it says TEL your landline phone is now ready to make and receive calls.

BATTERY BACKUP Internal Battery
To activate your rechargeable battery, slide open the battery compartment on the back of the HA360MC-II and plug in the connection wire. Slide the battery door back on to close.
Standard: 3.7V 2CELL 5000mAh 18.5Wh
UL: 3.7V 3CELL 7500mAh 27.75Wh

FCC STATEMENT

REGULATORY COMPLIANCE
PART 68 OF FCC RULES INFORMATION
The HA360M-II complies with Part 68 of FCC Rules. You must, upon request, provide the FCC registration number and REN to your local phone company. Both numbers are shown on the HA360M's rating label.

PART 15 OF FCC RULES INFORMATION
The HA360M-II complies with part 15 of the FCC rules, and with RSS-210 of Industry Canada. Operation is subject to the following two conditions;

1. This device might not cause harmful interference, and

2. this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, under part 15 of the FCC rules.

These limits are designed to provide responsible protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used by the instruction manual, may cause harmful interference to radio communications. However, there is no guarantee that interference will not interfere in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment on and off, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and the receiver.

- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio /TV technician for help.

Modification not expressly approved by the manufacturer and could void the user's authority to operate the equipment under FCC rules.
