Select a location

You can put your speaker just about anywhere. Here's a few guidelines:

- Sonos One SL sounds great even when placed next to a wall or on a shelf. For best performance, leave at least 1″ (2.5 cm) space around the back of the speaker.
- It's humidity-resistant so you can use it in the bathroom.
- It's not water-resistant so don't put it near water or leave it in the rain.

Speaker mounts and stands
