# Sound Machine

## BL10 Sound Machine Wake Up Light

## Product Information

### Specifications:

- **Model:** BL10
- **Power Input:** DC 5V
- **Power Source:** AC Adapter (100V-240V)
- **Battery:** CR2032 cell battery (pre-installed)
- **Display:** Time and Date
- **Alarm:** Dual alarms with customizable settings
- **Sound Options:** 30 sleep sounds, 7 alarm ringtones
- **Lighting:** RGB light with sunrise simulation

## Product Usage Instructions

### Setup and Maintenance:

- **Initial Power-on:** Connect the USB C cable to the DC 5V power port and plug the AC adapter into a 100V-240V outlet.
- **Battery Backup:** Remove the insulating spacer for first use. Change the CR2032 battery when needed.
- **Product Preservation:** Keep the product on a level surface away from direct sunlight, heat, or moisture.

### Time Setting:

1. Power on the device and press the designated button to enter time setting mode.
2. Choose between 12-hour or 24-hour format using the rotary knob.
3. Set the hour and minute using the knob, then select the correct day of the week.
4. Confirm and exit time setup to save the settings.

### Alarm Setting:

1. To set Alarm 1, hold the specified button to enter hour setup, then set minutes and choose a ringtone.
2. Select alarm volume and sunrise simulation time duration.
3. Choose a schedule pattern for the alarm and confirm to finish setup.

### When Alarm Goes Off:

1. To snooze, press the designated button for an additional 9 minutes of sleep.
2. To turn off the alarm, press any button except Snooze.

### Sleep Sounds:

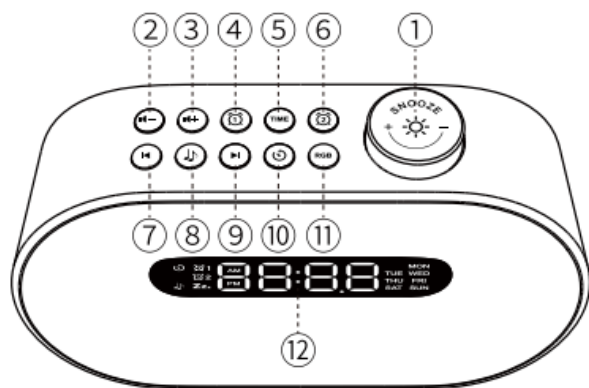

1. To activate sleep aid, press the specified button. Select from 30 available sleep sounds.

### Setup and Maintenance

#### Initial Power-on

Connect the USB C cable to the DC 5V power port of the Sound machine and plug the AC adapter into a 100V-240V household outlet.

### **Battery backup**

The Sound machine alarm clock is pre-installed with a CR2032 cell battery to remain your time settings in the event of a power failure.

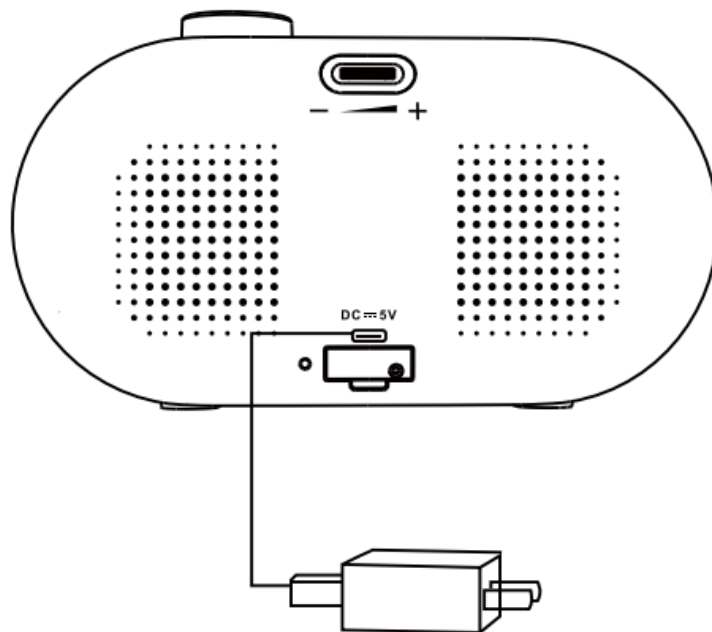

For first use, please remove the insulating spacer from the battery compartment.

### **Battery change**

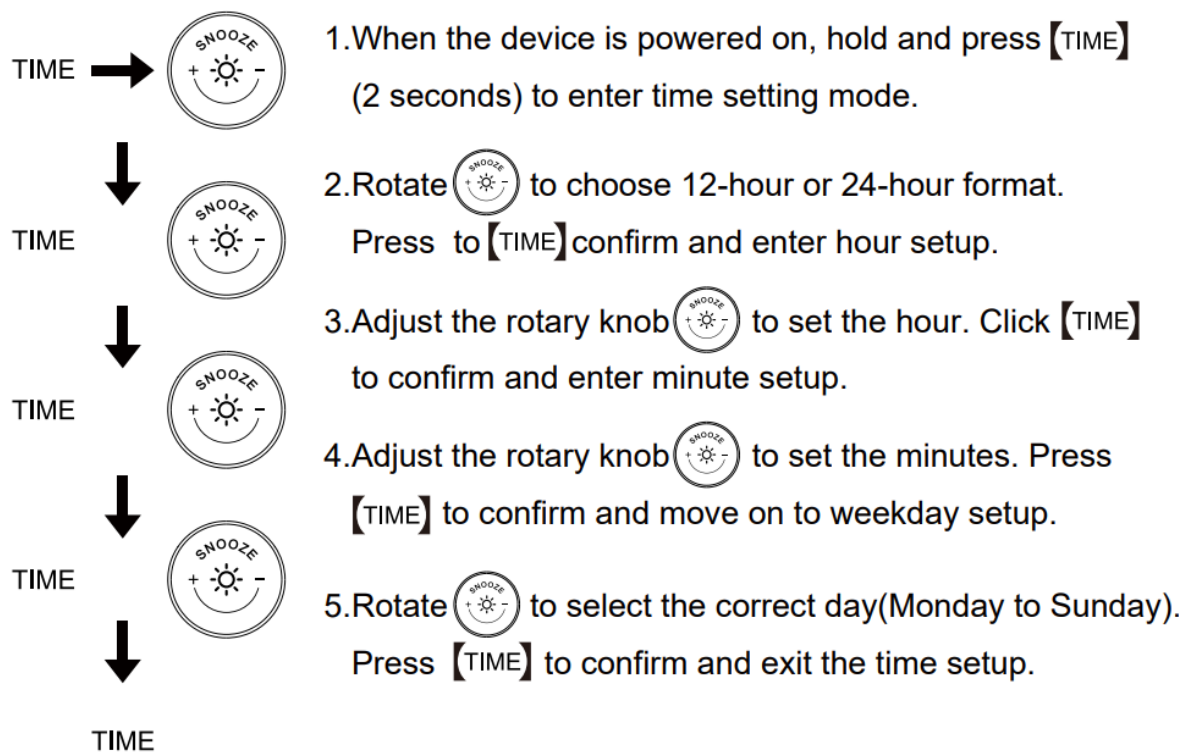

Unscrew the battery box with a screwdriver, install a new battery with the positive side facing up, and tighten the battery box.

### **Product preservation**

Place the item on a level surface away from sources of direct sunlight or excessive heat or moisture.

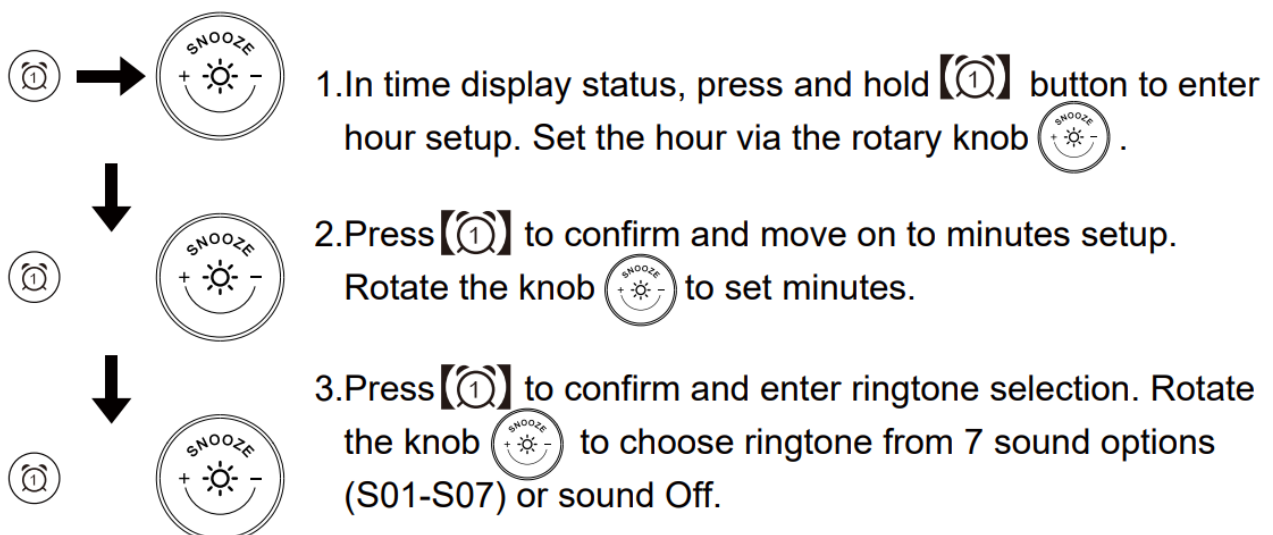

### **Time Setting**

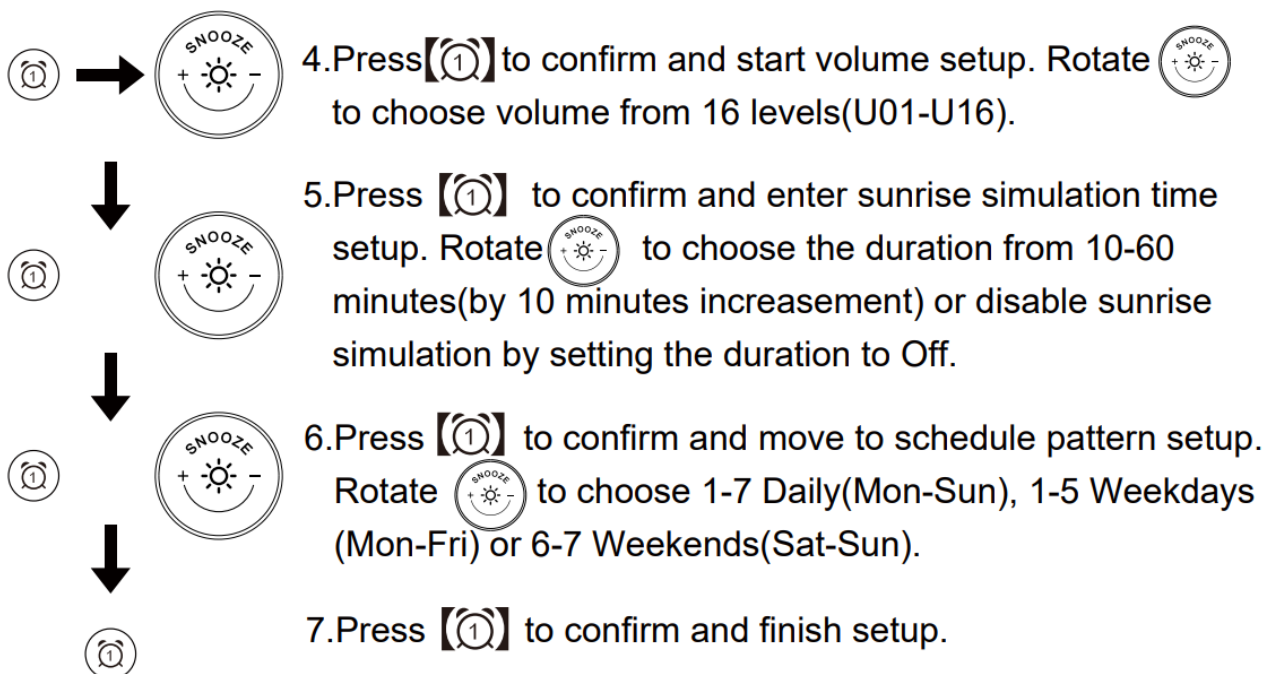

## Alarm Setting

### (Alarm 1 as example)

This Sound machine alarm clock features 2 separate alarms, so you can set up 2 different alarm times. For example, you can use Alarm 1 for weekdays and Alarm 2 for weekends.

If you enable the light alarm, the wake-up light will illuminate at the preset time and simulate a natural sunrise via gradually getting brighter over 10-60 minutes and reaching the maximum brightness at the scheduled alarm time.

When alarm goes off, you can:

#### 1. Snooze alarm

Press to snooze the alarm to get another 9 minutes sleep.

\*You can snooze the alarm unlimited times.

#### 2. Turn off alarm

Press the any button except /Snooze to turn off the alarm for the day.

**Note:** The alarm will stop automatically after 9 minutes without any operation.

### Sleep Sounds

1. In time display mode, press to turn on/off sleep aid.
2. Press to select sleep sounds among 30 sound options(S01~S30).
3. Press to set sound volume(16 levels: U01~U16).

### Display Brightness

In time display mode, rotate at the back of the sound machine to adjust display

brightness from 0-100%.

## Night Light

1. Turn on/off night light
2. Switch lights

- When powered on, press  to turn on/off the night light.
- Rotate  to set light brightness(20 brightness levels: L01-L20).  
When powered on, press RGB to turn on the RGB light and cycle through one warm white light and 13 color-changing lights(C01-C14).
- Rotate  to adjust light brightness(20 brightness levels: L01-L20).
- Press and hold RGB to turn off the RGB light.
- Press  to turn on/off the RGB light(it goes to the last light selection).

## Sleep Timer

1. In time display mode, press  to turn timer on and select timer duration from 15/30/60/90/120/180 minutes settings. The screen returns time display after 5 seconds without any operation.

\*When timer is enabled, click  to check remaining time on the screen.

2. Press and hold  to turn timer off.

\*Timer remembers your last sound and volume selection when turned on again.
