Using Your Soundbar

1. Turn On / Off
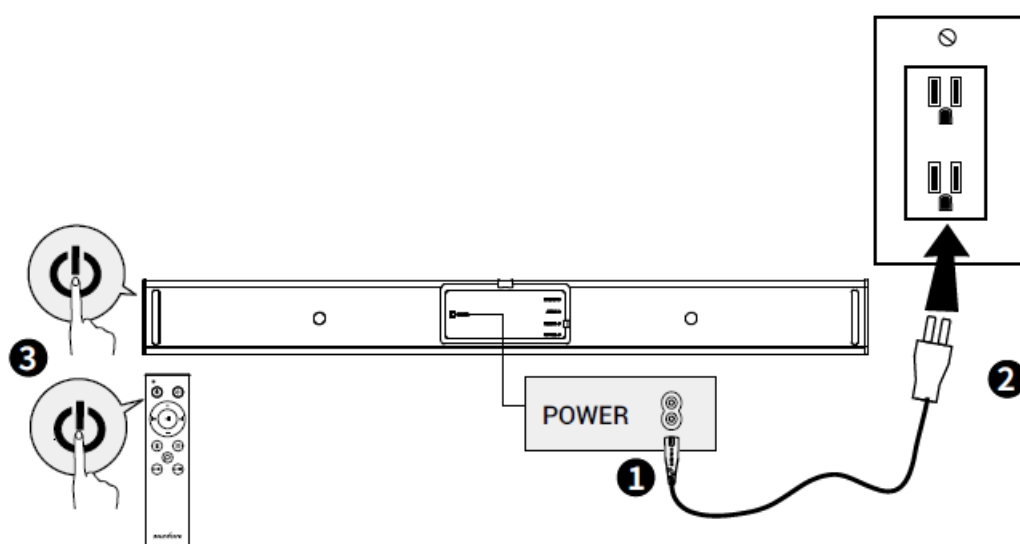

Warning: The soundbar will automatically switch to standby mode when no audio input is received for over 30 minutes. The soundbar will wake up from standby mode when any button is pressed or source input is received.

a. Connect to your TV
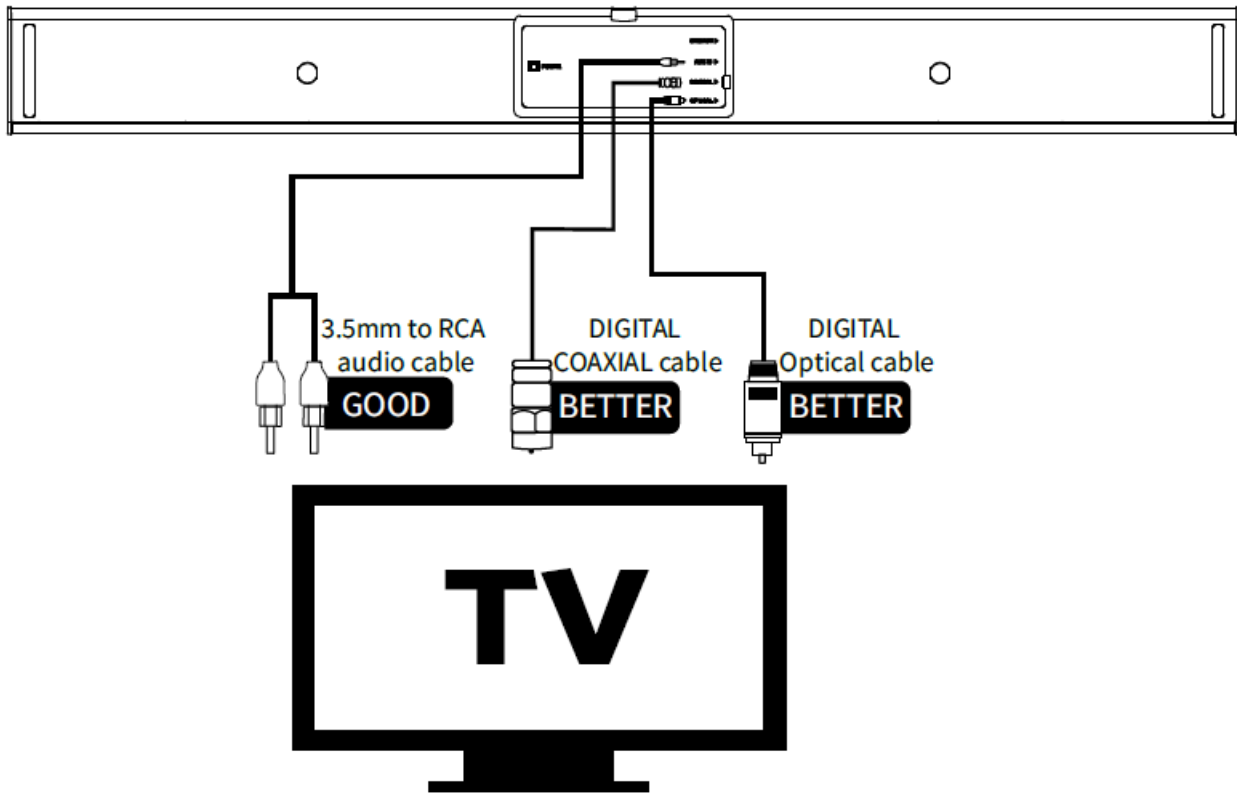

1. You can use optical cable, coaxial cable or 3.5mm to RCA audio cable to connect to the respective output port of your TV.

2. Press the source input button on the soundbar or remote control to activate the corresponding mode.The status indicator will be solid green in optical mode, orange in coaxial mode and cyan in Aux mode.

Note: The status indicator light will stay on for 10 seconds.
Note: Not all TVs have the audio outputs shown as above, please check your TV's specifications before setup.
Note: Try set the TV output to PCM if there is no audio sound when using either of the optical or coaxial inputs.
Note: Coaxial cable is not included.

b. Connect to other devices

1. You can use optical cable / coaxial cable or 3.5mm to RCA audio cable, or 3.5mm to 3.5mm cable (not included) to connect to the respective output port of other devices (such as Blu-ray player, game console, tablet, MP3 Player / laptop etc).
2. Press the source input button on the soundbar or remote control to activate optical, coaxial or Aux mode. The status indicator will be solid green in optical mode, orange in coaxial mode and cyan in Aux mode.

Note: The status indicator light will stay on for 10 seconds.
Note: Follow your device's user manual if you want to connect the soundbar to your other devices (such as Blu-ray player, game console, tablet, MP3 Player / laptop…etc)..
Note: 3.5mm to 3.5mm cable is not included.

c. Bluetooth mode

1. Press power button on the remote control to switch on the soundbar.
2. Press the Bluetooth button on the remote control to activate Bluetooth pairing mode.
3. Turn on the Bluetooth of your device, search for Soundcore Infini on your Bluetooth list then select connect.

Flashing blue	Bluetooth mode is activated
Solid blue	Connected to device **Note:** The status indicator light will stay on for 10 seconds.

Warning:

- When turned on, Soundcore Infini Soundbar will automatically connect to the last connected device if available. If not, press and hold the Bluetooth button (or source input button) for 3 seconds on the remote control or press the source input button on the soundbar for 3 seconds to activate Bluetooth mode.
- Having connection problems? Remove Soundcore Infini from your device's Bluetooth history and ensure it's less than 10 meters away. Then try pairing again. To get the best sound quality, make sure there is a clear line of sight between the connected device and your soundbar.

Warning:

When not in use, store your soundbar in a cool place.

A3371 FAQ

1. Can Soundcore Infini be connected to a TV wirelessly via Bluetooth?
The soundbar can be connected to a TV with the Bluetooth feature.

2. Can all three inputs be used (three different devices connected) at the same time?
You can plug in three inputs and switch between them, but only one will play at a time.

3. Will Soundcore Infini work with an iPod that has bluetooth?
Yes.

4. Does Soundcore Infini have an audio output?
It does not. It only has Bluetooth, Optical, Coaxial, and 3.5mm audio input.

5. Can I connect additional wired speakers to Soundcore Infini?
No.

6. How do I connect to the TV using Bluetooth?
See article.

7. Can Soundcore Infini be mounted on the TV?
Yes, you can do it with 2 wall mount screws, 2 wall mount brackets, and the wall mount template.

8. How many watts does Soundcore Infini have?
The output is 100W.

9. Does an optical cable come with the package?
Yes, it comes with a 4.9 ft optical cable.

10. Is Soundcore Infini able to decode Dolby Digital 5.1?

No, it can't.

11. Is there an external compatible subwoofer?
It comes with two built-in subwoofer speakers and cannot be added to an external subwoofer.

12. Will Soundcore Infini automatically turn off?
The soundbar will automatically switch to standby mode when no audio input is received for over 30 minutes, and will wake up from standby mode when any button is pressed or source input is received.
