Speechi 2.0 Android Presentation Software

Product Information

The product is a presentation software called Note 2.0 Android. It is designed for Android devices and is equipped with various features to create and customize presentations.

The main features of the software include

- **Toolbar:** A diagram that groups together all the functionalities that are permanently accessible in Note.
- **Main Menu:** A menu that provides access to files, settings, background customization, and other options.
- **Slides:** The ability to create multiple slides and navigate between them.
- **Writing and Drawing Tools:** Creation of post-its, tables, and the option to write or draw using different tools, line thickness, and colors.
- **Selection:** The ability to select and manipulate shapes, texts, and perform handwriting recognition.
- **Eraser:** An option to set the width of the eraser when erasing content.
- **Shapes:** Shape recognition available for interactive displays equipped with pressure recognition.
- **Note:** The ability to change the background color of the presentation.
- **Overview:** A feature to navigate within the presentation.
- **Handwriting Recognition:** Support for Italian and Spanish languages.
- **Internet Research:** Start an internet search directly from a written word.

Product Usage Instructions

To use the Note 2.0 Android presentation software, follow these steps

Creating Slides

1. Click on "Number of pages" in the toolbar to display your slides.
2. Navigate between slides by selecting the desired slide.

Customizing Background

1. Go to the Main Menu.
2. Select “Background”.
3. Change the background color or add an image as desired.

Writing and Drawing

1. Select finger writing for pressure recognition (if available).
2. Select thin or thick pen lead.
3. Choose the writing tool from the toolbar.
4. Set the line thickness for the selected tool.
5. Choose the writing color from the toolbar.

Selection and Manipulation

For selecting and manipulating items, follow these instructions

- To select a shape, click on it using the selection tool from the toolbar.
- To select a text, click on it using the selection tool from the toolbar.
- To perform handwriting recognition, write in Italian or Spanish using the handwriting recognition feature.

Erasing Content

1. Adjust the width of the eraser using the eraser tool from the toolbar.

Shape Recognition (if available)

1. If using an interactive display equipped with pressure recognition, shape recognition is available. Follow the instructions provided by the software for shape recognition.

Navigation and Overview

1. Use the overview feature to navigate within the presentation.

Internet Research

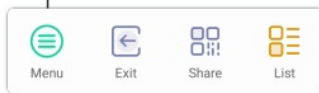

1. Start an internet search by writing a word within the software. The software will initiate an internet search based on the written word.
