sprout AI-DW_r4 Practical Life Table

Product Usage Instructions

Assembly:

1. Insert tabs on Braces A & B into slots on Side Panel C and press down to lock.
2. Press down on Braces A & B to lock them into place.
3. Thread screws into slats using the hex wrench.
4. Insert Slats with holes D into the outermost slots on Side Panel C. Insert remaining Slats E and Dowels F into designated places.
5. Set the second Side Panel C into position, fitting the dowels into the holes and working your way across one at a time. Carefully set upright.
6. Using a rubber mallet, push the Table Top G sideways so the tabs lock in with the notch.
7. Align the slots on Table Top G with tabs on Braces A & B. Push down until flush with the top of Side Panels.
8. If necessary, carefully place the unit on its end and push down on the top edge of the Side Panels to tighten.

Safety Instructions:

- Adult assembly only. Assemble completely before use.
- Do not use this product without adult supervision.

FAQ:

- **Q: What should I do if I encounter difficulties during assembly?**

A: If you are frustrated or need help during assembly, please contact our customer service agent at +1 **833-530-0033** or email us at **support@sprout-kids.com** for assistance.
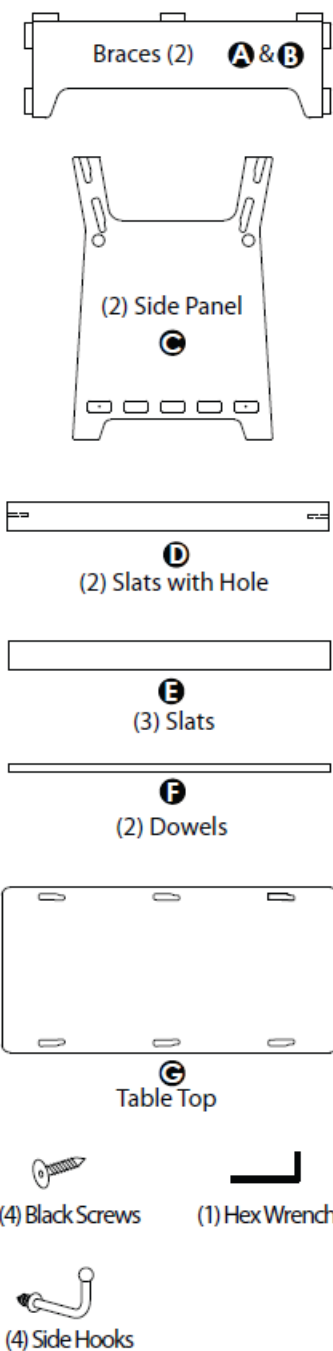

- **Q: How do I secure the screw-in hooks into the product?**

  A: As desired, insert screw-in hooks into holes on the outside of the Side Panels. If necessary, tighten with pliers with jaws wrapped with cloth to ensure a secure fit.

- **Q: Where can I find more information about the product?**

  A: For more information and details, visit our website at **www.sprout-kids.com** or refer to the user manual provided with the product.
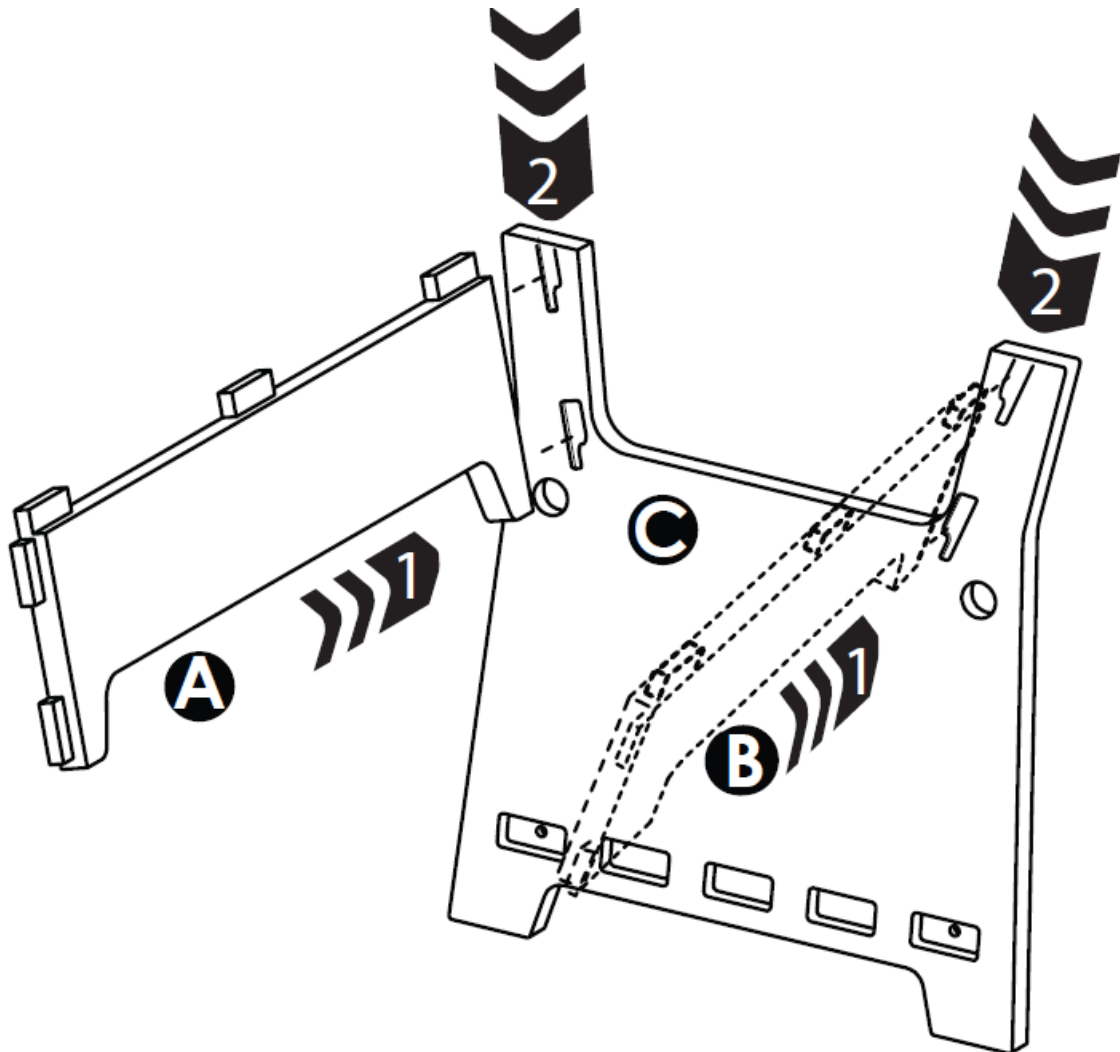

Parts List

Braces (2) Ⓐ & Ⓑ

(2) Side Panel
Ⓒ

Ⓓ
(2) Slats with Hole

Ⓔ
(3) Slats

Ⓕ
(2) Dowels

Ⓖ
Table Top

(4) Black Screws   (1) Hex Wrench

(4) Side Hooks

Assembly Instruction

1. Grooves on Support Panels should be oriented inwards as pictured above.
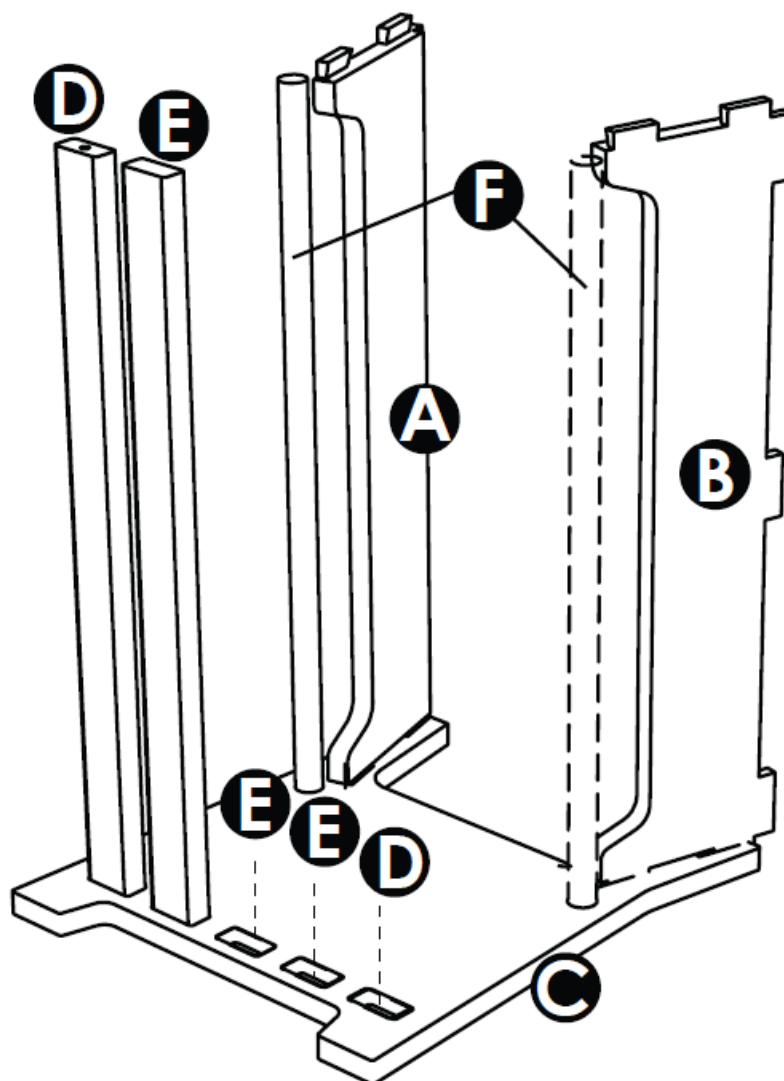

2. Insert tabs on Braces **A** & **B** into slots on Side Panel **C** and press down to lock.

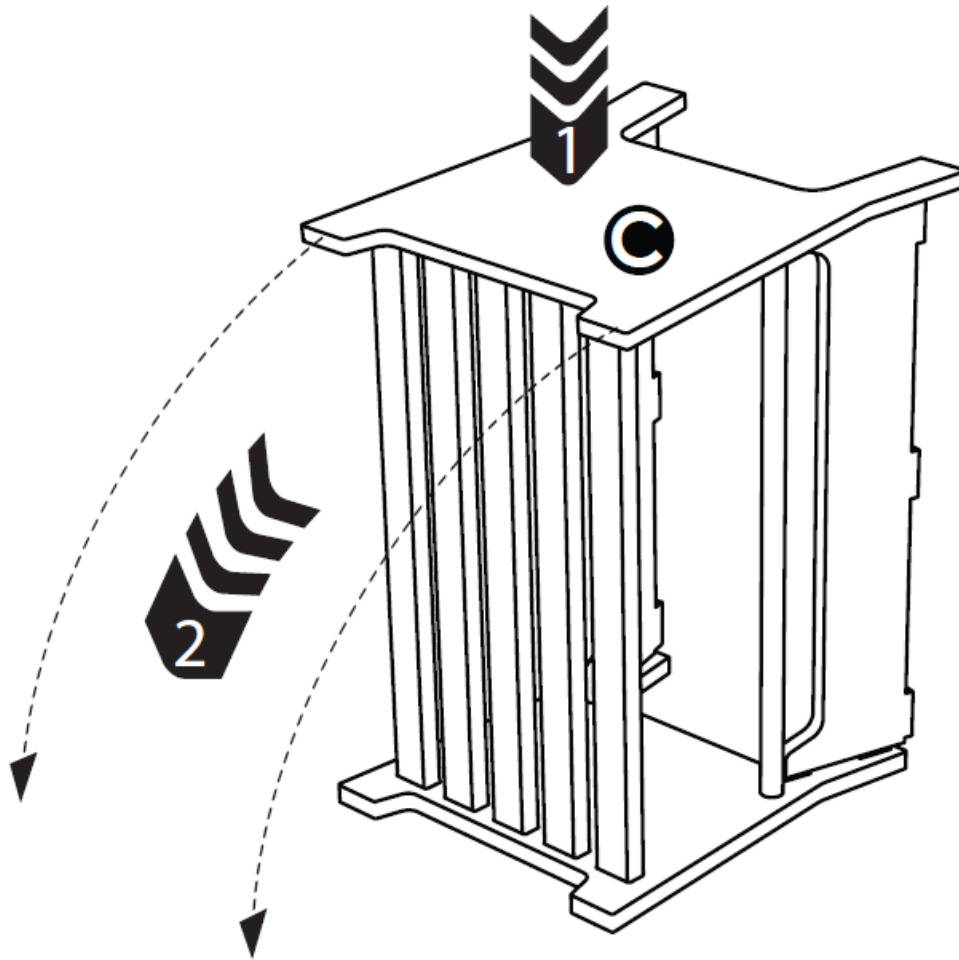

3. Insert Slats with holes **D** into outermost slots on Side Panel **C**. Insert remaining Slats **E** and Dowels **F** into
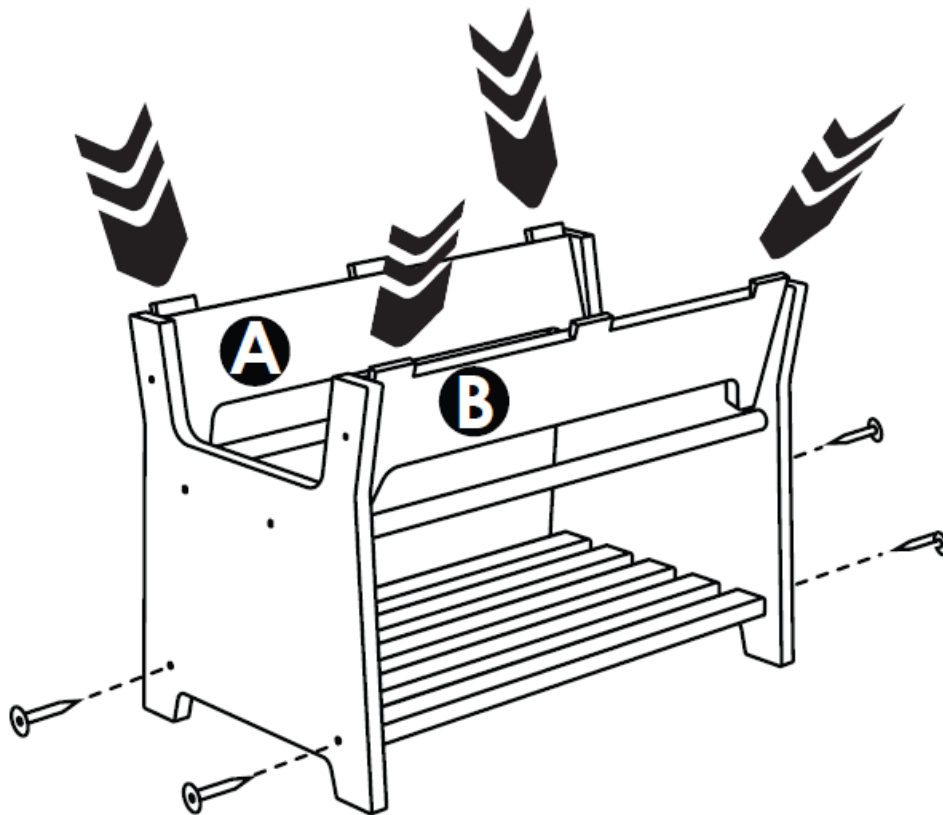

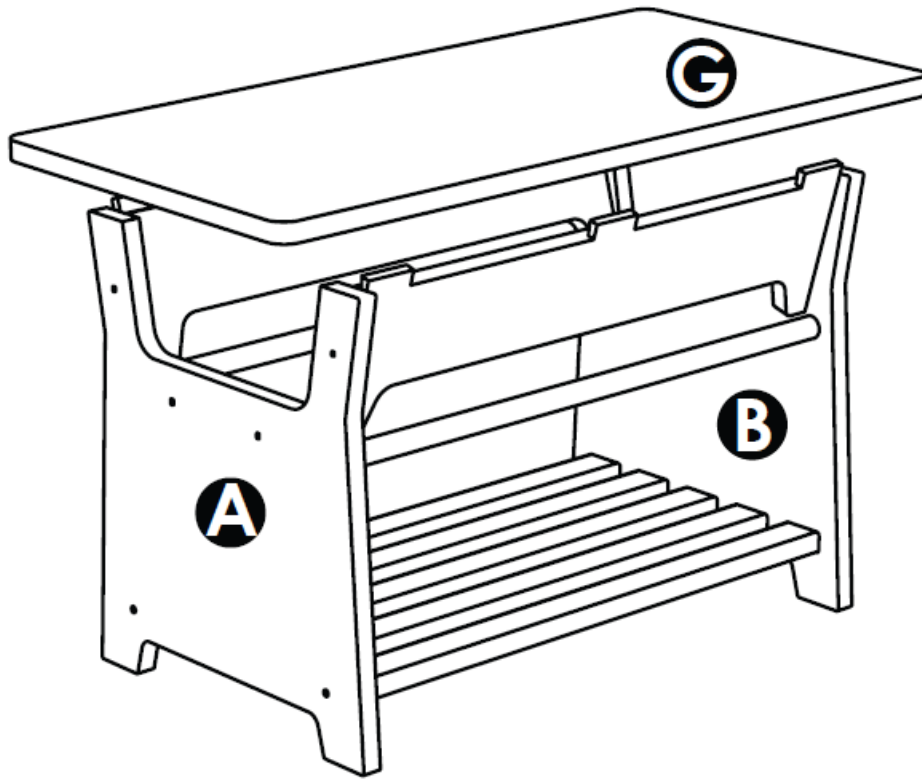

designated places.

4. Set the second Side of Panel **C** into position. It helps to start at one side fitting the dowels into the holes and work your way across one at a time. Carefully set upright.
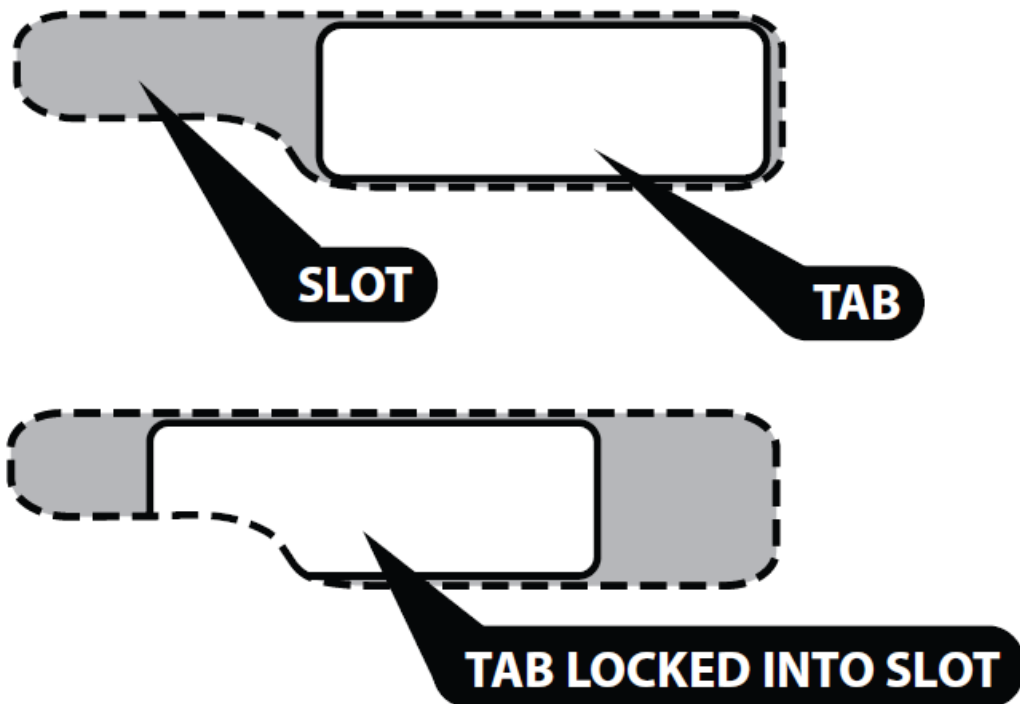

5. Press down on Braces **A** & **B** to lock into place. Thread screws into slats with a hex wrench.

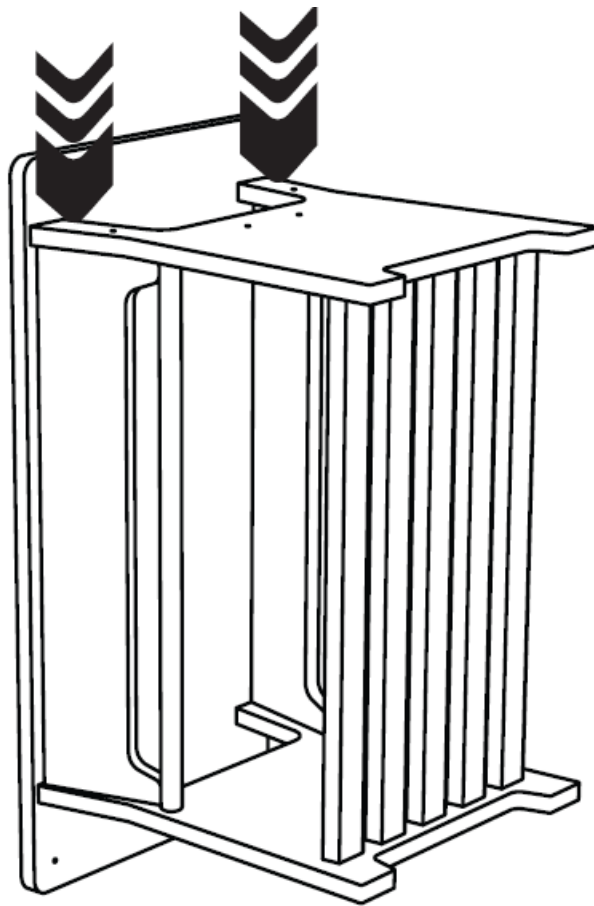

6. Align up slots on Table Top **G** with tabs on Braces **A** & **B**. Push down until flush with the top of Side Panels.
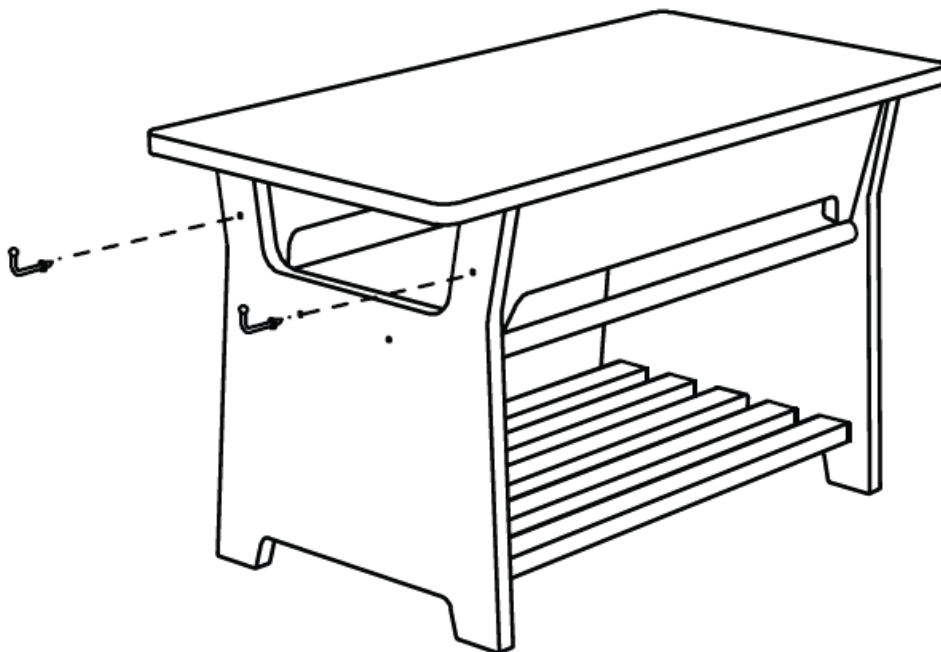

7. Using a rubber mallet, push the Table Top **G** sideways so the tabs lock in with the notch as pictured above.

SLOT

TAB

TAB LOCKED INTO SLOT

8. If necessary, carefully place the unit on its end, and push down on the top edge of the Side Panels to tighten.

9. As desired, insert screw-in hooks into holes on the outside of the Side Panels. If necessary, tighten with pliers with jaws wrapped with cloth.

Important

- Adult assembly only
- Assemble completely before use
- Assemble on a hard floor
- Do not use this product without Adult Supervision
