Connection

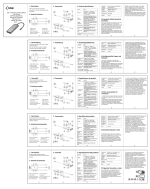

Product Specifications

Input	Type-C
Output	2xUSB3.0-A; 1 xUSB2.0-A; 1x Type-C PD; 1 xDP; 2xHDMI; 1 x SD/TF; 1 x RJ45(1000Mbps); 1 x3.5mm Audio;
Data interface	2x USB3.0-A Read and write speed up to 5Gbps (about 450MB per second), backward compatible with USB2.0/1.1 1x USB2.0-A special for wireless mouse and keyboard This interface also supports USB2.0 data transmission
HDMI interface	supports up to 4K/60Hz resolution, supports HDCP
DP interface	support up to 4K60Hz resolution, support HDCP
RJ45 network port	support Gigabit Ethernet and backward compatible with 10/ 100M network
SD/TF card slot	support SD3.0, SD/TF card can be used at the same time, support hot-plug
3.5mm audio interface	support audio input/output
Charging interface	Type-C interface, supports PD3.0 charging protocol
Support system	Windows10/11; MacOS; Android; iPad OS
Size(L*W*H)	124.2*52.8*18mm
Cable length	18cm/0.6ft
Weight	145.6g

Frequently Asked Questions and Notes

1. The Type-C interface near the Type-C cable only supports PD charging, has no data function;
2. HDMI and DP interfaces can be used at the same time, the video output supports MST split screen mode, and multiple screens can be connected to display different contents at the same time (This mode is only for Windows).
3. Limited by the performance of the device, when multiple display devices are connected at the same time, the display device may not be able to reach its maximum resolution.
4. Please use the original charger of the Laptop/ tablet for charging. If you need to use another charger to charge, please ensure that the charger supports the PD charging protocol and the charging power meets the minimum requirements of Laptop/Tablet.
5. When connecting multiple large-capacity mobile hard disks and other devices, please connect them one by one to avoid powering on too many devices at the same time and causing insufficient power.
