Standard Dynamic Microphone with hemisphere Mic Modeling

USER GUIDE

Congratulations

Your new SD-7 Standard Dynamic Microphone with Hemisphere Mic Modeling is designed to deliver years of uncompromising sonic performance.

The SD-7 is a professional dynamic studio microphone suitable for a wide range of audio applications. With its hypercardioid polar pattern and brilliant, punchy tone, the SD-7 is perfect for capturing toms, horns, and other high SPL sources.

Get Hemisphere

Your SD-7 includes Hemisphere mic modeling, giving you a collection of the greatest mics ever made.

Follow these steps to get your Hemisphere Mic Collection plug-in:

1. On your computer, visit uaudio.com/mics/hemisphere
2. Download, install, and open the UA Connect application.
3. Click the **+ Add Hardware** button in the app and enter the serial number, which can be found on the package or the XLR connector, then download your plug-in.

For complete documentation and support, please visit help.uaudio.com
