Bag Hook

Mounting Option 1: Hand Controller Holes

Fixing: Timber Screw

Using two timber screws, position the Bag Hook on the opposite side of your hand controller. Use a Phillips Head Screw Driver to tighten in place.

Alternatively you can mount this with your hand controller by mounting the hand controller over this and using the same 2 screws.

Mounting Option 2: Side Bracket

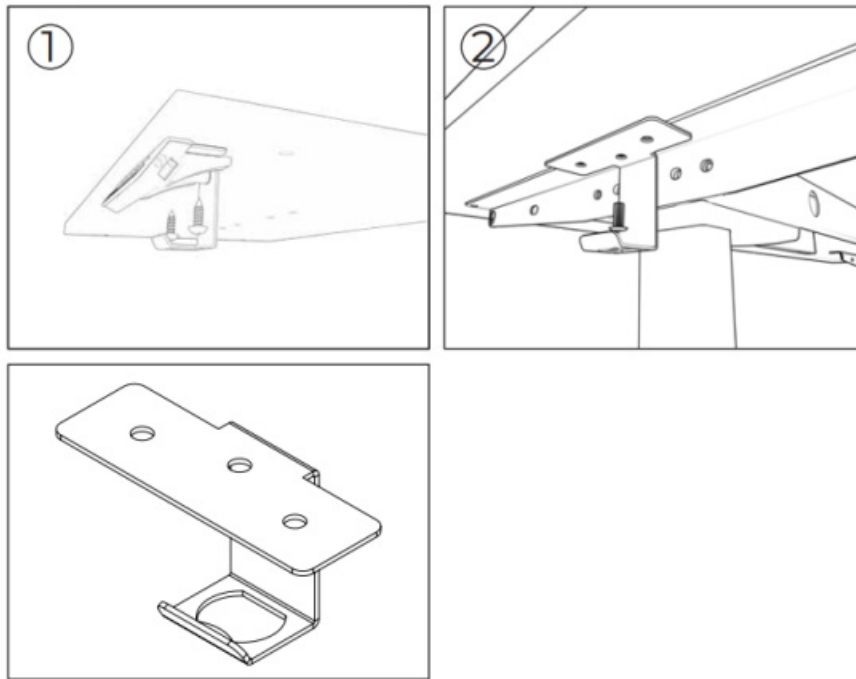

Fixing: Machine Screw

Remove either front, centre or rear side bracket machine screw installed on your desk.

Position where required and re-insert the screw.

You're now ready to hang your bag, headphone or crack open a cold drink!

If you wish to mount elsewhere, simply use an electric drill and drive 2 timber screws into the desk in your desired position.
