stando Fixed Height Frame Kit

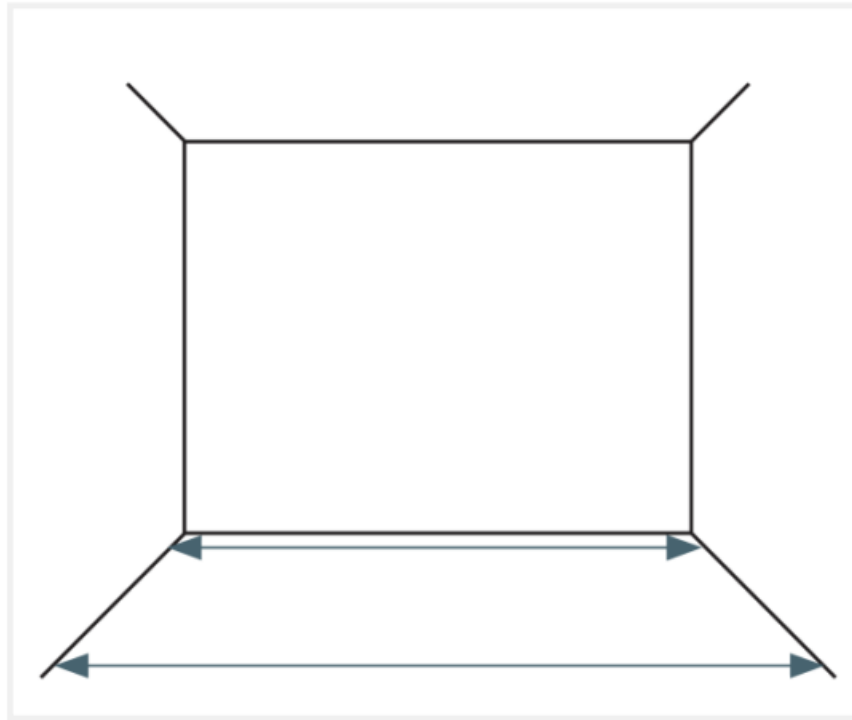

Specifications

Measurement	Recommendation
Width	Reduce by 3cm
Depth (Tight Space)	Use masking tape for the best fit
Depth (Room)	750mm or deeper
Height	170cm clearance

How to measure your space

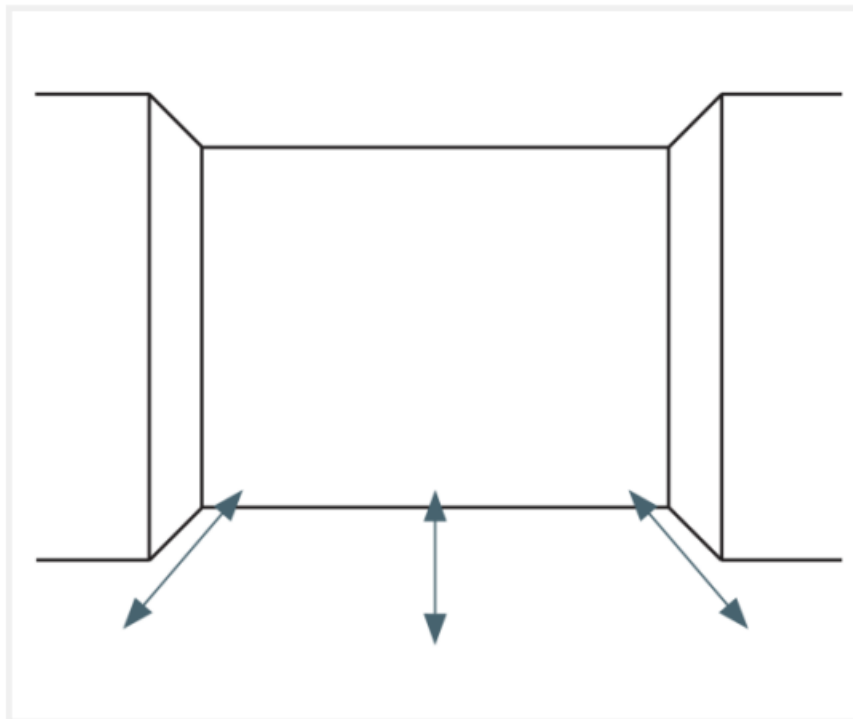

Width (In a tight space)

Width (In a tight space) Measure in 2 points between the bottom of your wall. Reduce the smallest dimension by a safe distance of 3cm. This allows for any walls or areas that are not straight along with providing enough distance for the desk to be raised and lowered safely.

Depth (In a tight space/nook)

If in a tight space measure from your wall to the desired area where you want the front of your desk. Tip: Use masking tape on the floor to help determine the best-fit desk for your space.

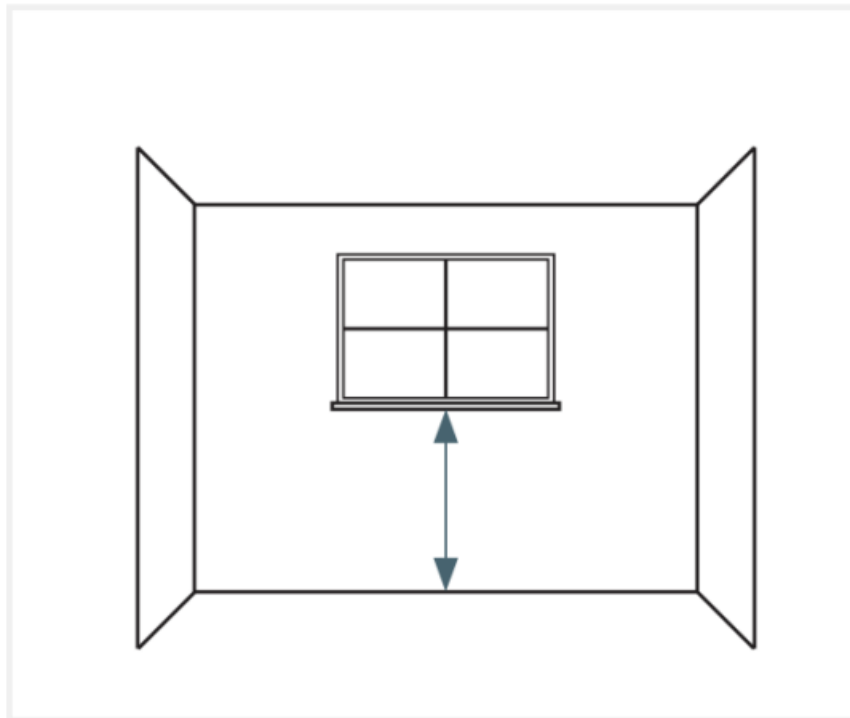

Depth (In a room)

Depth (In a room) Ensure your desk is deep enough to meet your IT needs while ensuring it doesn't stick out into a busy area. If you are using a dual-screen setup we recommend a depth of 750mm or deeper. If you have the space available in your space, deeper is generally recommended to provide additional working space and provide distance between you and your screens.

Height

Height It is important to check for obstructions such as wall-mounted shelves or window sills that may obstruct the desk, or your computer screens as the desk raises. To be safe, we recommend allowing 170cm from the floor to the bottom of any wall-mounted shelf or obstruction. 0 Use the advanced programming guide to D program upper and lower limits on your desk

FAQs

Why should I reduce the width by 3cm?

This ensures there is enough space for the desk to raise and lower safely without hitting the walls.

How can I determine the best desk fit for a tight space?

Use masking tape on the floor to outline the desired desk area.

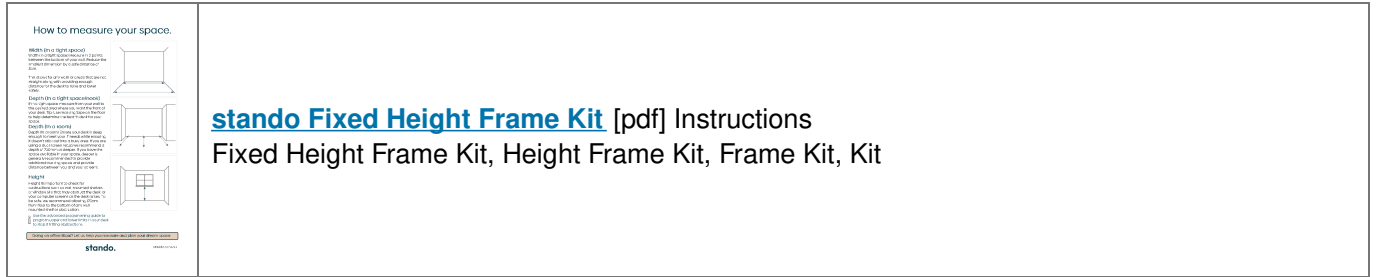

What is the recommended desk depth for dual screen setups?

A depth of 750mm or deeper is recommended to accommodate dual screens comfortably.

How much clearance should I allow for height?

Allow 170cm from the floor to the bottom of any wall-mounted shelf or obstruction.
