- Phillips head screwdriver

Operation

WARNINGS

Do not exceed the weight capacity of this product. Overloading this product might result in injury or property damage. This product can support the following weight: up to 2.2 lb (1 kg).

When adjusting the tilt or height of this product, ensure that the mounted equipment is properly secured and the weight is fully supported. Failure to follow these guidelines may result in property damage and/or personal injury.

When not fixed to a surface, always use two hands to ensure a controlled movement when adjusting the height or tilt angle of this product to prevent tipping it over.

Is recommended to remove any protective case from the Tablet to fit properly on the Holders.

1. Slide the Holders outwards to make enough room to mount the Tablet Vertically on the Clamp. If the Tablet is Small enough, it can be mounted Horizontally too.
2. Insert one side of the Tablet on one of the Holders. Keep Supporting the weight of the Tablet .
3. Slide Inwards the remaining Holder to secure the Table in place. **Figure 1.**

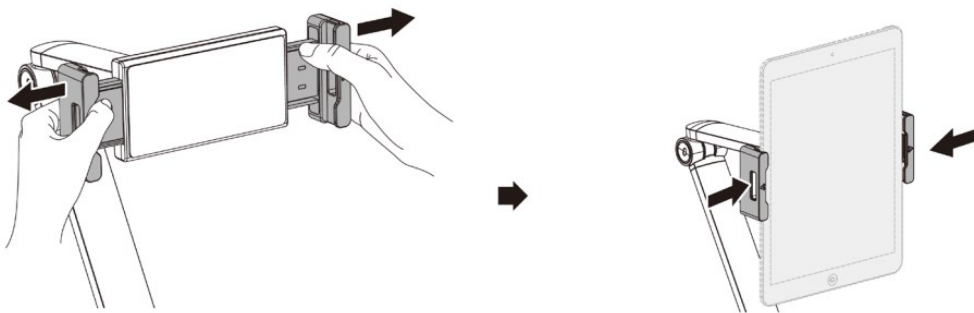

Figure 1

Adjust the Rotation Resistance of the Clamp

1. Rotate Clockwise to Tighten the Resistance Knob at the back of the Clamp. The right resistance allows the Clamp to rotate 360°, up and down, and side to side while keeping its position when the Tablet is in use.

Adjust the Tension of the Clamp Tilt

1. Use the 5 mm Hex Key and rotate Clockwise to Increase the Resistance. The right Resistance allows the Clamp to rotate up and down while keeping its position when the Tablet is in use.

Adjust the Tension of the Support Arm Tilt

1. Use the 5 mm Hex Key to tune one or two of the Support Arm Tilt Adjustment Screws. Rotate Clockwise to Increase the Resistance

Attach the Tablet Stand to a Desk

May need pilot holes before mounting the Tablet Stand.

The supplied Wood Screws may not be suitable if they are longer than the thickness of the mounting surface.

1. Insert the 4.2×19 mm Wood Screws (x 4) onto the Mounting Holes (x 4) on the Base.
2. Use a Phillips Head Screwdriver to fasten the 4.2×19 mm Wood Screws to the Desk or Table.

(Optional) Secure the Support Arm onto the Base

1. If the Screws at the bottom of the Base come loose, use the 3 mm Hex Key to Tighten them. Rotate Clockwise to Tighten.

Use of Trademarks, Registered Trademarks, and other Protected Names and Symbols

This manual may make reference to trademarks, registered trademarks, and other protected names and/or symbols of third-party companies not related in any way to StarTech.com. Where they occur these references are for illustrative purposes only and do not represent an endorsement of a product or service by StarTech. com, or an endorsement of the product(s) to which this manual applies by the third party company in question.
