Requirements

For the latest drivers/software, technical specifications, and declarations of conformance, please visit: www.StarTech.com/USB32HDVGA

Package Contents

- USB-A to HDMI and VGA Adapter x 1

Driver Installation

Installation is automatic for Windows 10 & up, and Chrome OS, in most situations. If the drivers do not auto-install, contact your IT administrator or department to allow the driver installation. If you are using macOS or another supported operating system, the latest drivers are available at: www.StarTech.com/USB32HDVGA

Note: Operating system requirements are subject to change. For the latest requirements, please visit: www.StarTech.com/USB32HDVGA

Installation

Installing the Video Adapter

1. Connect the USB Host Connection to an available USB-A Port on the Host Computer.
2. Connect an HDMI Cable (sold separately) from the HDMI Output on the USB Video Adapter, to an HDMI Display.
3. Connect a VGA Cable (sold separately) from the VGA Output on the USB Video Adapter, to a VGA Display.
4. Arrange the display using the operating system's Display Settings.

Operation

Change Display Settings in macOS

Intel Based Mac Devices

To change the Screen Rotation or other Settings, use the operating system's Display Settings.

M1/M2 Based Mac Devices

To Mirror/Extend the connected displays, use the Instant View App. The Instant View App is accessible by Single Clicking the Instant View App Icon in the Menu bar.

To change the Screen Rotation or other Settings, use the Instant View App by Right Clicking/Double Clicking the Instant View App Icon in the Menu Bar, which will bring up a variety of available settings.

Regulatory Compliance

FCC – Part 15

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Changes or modifications not expressly approved by StarTech.com could void the user's authority to operate the equipment.

Industry Canada Statement

This Class B digital apparatus complies with Canadian ICES-003.

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions:

(1) This device may not cause interference, and (2) This device must accept any interference, including interference that may cause undesired operation of the device.
