Steelseries Apex RAW Gaming Keyboard User Guide

Contents

**Steelseries Apex RAW Gaming Keyboard**

PACKAGE CONTENTS

- SteelSeries Apex RAW Gaming Keyboard
- Quick Start Guide
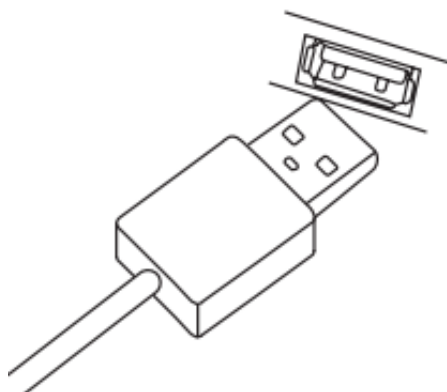

SYSTEM REQUIREMENTS

- Windows@ 8, 7, Vista , xp, or Mace OS X vl 0.6+
- 500 MB of free hard drive space
- 2 GB RAM
- Available USB port
- Internet connection (for driver software installation)

FEATURES

1. Ergonomic wrist rest
2. Extra large spacebar and unique up-left / up-right arrow keys
3. SteelSeries function key for quick access to illumination control and media keys
4. Seventeen macro keys for binding custom actions, located in easy to reach positions
5. Two "layer" keys to switch between sets of configurations for macro keys

GETTING STARTED

1. Remove the Apex RAW Gaming Keyboard from its packaging
2. Connect the keyboard to an available USB port on your PC or Mac via the USB connector

STEELSERIES ENGINE

1. Install the SteelSeries Engine to access additional features, like macro key and layer configuration:
2. Go to **http://steelseries.com/support/downloads**
3. Find the SteelSeries Apex RAW Gaming Keyboard, then click it to view a list of available software
4. Click the Download button under either SteelSeries Engine for Windows or SteelSeries Engine for Mac
5. Run the installer software
6. Follow the on-screen instructions

After installation is complete, the SteelSeries Engine will start automatically. The interface can be opened by double- clicking the tray icon or by clicking the menu icon and selecting Open SteelSeries Engine. It can also be launched from the Start Menu on Windows or the Applications folder on Mac. For a detailed description of the Apex RAW Gaming Keyboard's features, please refer to the user guide available at
http://www.steelseries.com/downloads
