Important Safety Information

1. Read and understand the instructions and safety guide completely before using the product.

2. Ensure both the instruction manual and regulatory and safety guide are accessible to all users, including when passing the product on to third parties.
3. Only use this product with authorised RØDE accessories.
4. Do not open the product housing. This will void the warranty.
5. Refer all service and repair to RØDEapproved service personnel. Service or repair is required for products that have been damaged, exposed to liquid, rain or moisture, or do not operate normally.
6. Use the product only in the ways described in the instructions.
7. Do not use the product if it was damaged during transportation.
8. Keep the product away from liquids and electrically conductive objects that are not necessary for operation.
9. Do not use any solvents or corrosive cleaning agents to clean the product.
10. Do not adjust the controls of the product in an environment that requires your attention (operating machinery, driving etc.).

North America

The STREAMER X must not be co-located or operated in conjunction with any other antenna or transmitter.

The device complies with part 15 of the FCC rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

1. Reorient or relocate the receiving antenna.
2. Increase the separation between the equipment and the receiver.
3. Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
4. Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth in an uncontrolled environment.

Changes or modifications not expressly approved by RØDE could void the user's authority to operate the equipment.

This device contains license-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's license-exempt RSS(s). Operation is subject to the following two conditions:

1. This device may not cause interference.
2. This device must accept any interference, including interference that may cause undesired operation of the

device.

Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment shall be installed and operated with a minimum distance of 20cm between the radiator & body.

Radio Frequency Exposure Statement for Canada

The device has been evaluated to meet general RF exposure requirements. The device can be used in mobile exposure conditions. The minimum separation distance is 20cm.

EU Compliance Statement

Hereby, RØDE Microphones declares that the radio equipment type Streamer X is in compliance with Directive 2014/53/EU.

The full text of the EU declaration of conformity is available at the following internet address:

<http://www.ode.com/streamer-x>

Frequency Range: 2.402 – 2.480 GHz

Maximum Output Power: < 10dBm

For details of EU representative go to <http://en.ode.com/distributors>

Caution:

The Streamer X has been designed to be used with the provided power supply, as use the provided power supply only.

Stop using the power supply unit and any cables if:

1. There is any damage to the charging port, power connector or power cord.
2. The power supply unit is exposed to excessive moisture, or liquids is spilled into the power supply unit.
3. The power supply unit enclosure is broken.

Power Supply Unit Specifications:

Model Name: YDS-PD030A

Frequency: 50-60 Hz

Line Voltage: 100-240 Vac

Output Ratings: 20Vdc 1.5A; 15Vdc 2.0A; 12Vdc 2.5A; 9Vdc 3A; 5Vdc 3A

Note of Disposal

WEEE Directive (2012/19/EU)

The crossed-out bin symbol on a product and/or packing indicates that this product should not be discarded with general domestic waste, but must be collected separately at the end of its service life. Please observe the legal regulations on electrical waste segregation and disposal applicable in your country.
