In the Box

Product Description

- **A:** Light control button (12 light modes) | RGB static | RGB scrolling | RGB pulse | Red | Orange | Yellow | Green | Blue | Navy | Purple | White | No LED
- **B:** Replaceable icon card
- **C:** USB slot on/off switch
- **D:** Power charging slot for 5V/2A charging only
- **E:** USB port connection to NB/Computer
- **F:** 12V/2A adaptor with region specific plug type

When the hub is not powered by the included 12V/2A adaptor, connected USB devices should not exceed a combined input current of 900mA. While powered by the adaptor, 24W additional power is provided. Only the included adaptor may be used to power the Hub

This device does not require driver installation.
